ACKNOWLEDGEMENTS

The author is extremely grateful to Prof. S.V. Subrahmanyam, Professor of Physics, Sri Krishnadevaraya University, Anantapur (presently Visiting Professor, Department of Electrical and Communication Engineering, Moi University, Kenya) for his valuable guidance. Prof. Subrahmanyam has always been available with critical suggestions for which the author owes a lot.

The author owes a deep debt of gratitude to Prof. N.C. Parappa, Principal, University College of Physical Education and former Registrar of Bangalore University, Bangalore for his constant encouragement throughout the progress of the work. The author is extremely grateful to Prof. N. Manohara Murthy, Professor and Head of the Department of Physics, Sri Krishnadevaraya University, Anantapur, for his invaluable suggestions without which the thesis would not have come to the present form.

The author is thankful to Prof. K.C. Anki Reddy, Professor of Mathematics, Sri Krishnadevaraya University, Anantapur and Sri P. Nagamuni Reddy, Head of the Department of Statistics, Government College, Anantapur for their affectionate care and moral support given to him in carrying out the research work.

The author takes this opportunity to record his appreciation to his wife Smt. P. Rajeswari for the incessant encouragement given to him throughout the progress of the work.

The author's thanks are due to all the members of the Staff of the Department of Physics, Sri Krishnadevaraya University, Anantapur for their keen interest in the work.
The author acknowledges with thanks for the support and cooperation rendered by the President and Members of the District Basketball Association, Anantapur, in the successful completion of the present study.

Mr. V. Sahadevan receives a special note of thanks for the neatness of execution in typing.

The author gratefully acknowledges his indebtedness to the authorities of Sri Krishnadevaraya University, Anantapur for providing necessary facilities for carrying out the present programme of study.
