ACKNOWLEDGEMENTS

It is my proud privilege to express my heartfelt gratitude to my research guide Prof. D. Sarala Kumari, Department of Biochemistry, Sri Krishnadevaraya University, for her inspiring guidance and valuable suggestions in planning and execution of my research work.

I wish to express my deep sense of gratitude to Showrilu Reddy, Principal, St. Joseph’s College, Kurnool, for her keen interest and constant encouragement throughout the course of study which have made it possible to bring out this thesis.

I wish to express my special thanks to Prof. Chitta Suresh Kumar, Head, Department of Biochemistry and my sincere thanks to staff members of the department, Prof. K. Lakshmi Devi and Prof. N. Ch. Varadacharyulu for their valuable suggestions and encouragement.

I would like to express my sincere thanks to faculty members of Microbiology department Prof. S. Venkateswarlu, Prof. P. B. B. N. Charyulu, Prof. B. Venkatappa and Prof. B. Rajasekhar Reddy for their cooperation throughout the study.

I would like to express my sincere thanks and gratitude to my uncle Mr. C. S. Ramachandra Rao, for his constant encouragement and support.

I am highly indebted to my research colleagues S. Sreenivasa Reddy, R. Karuna, B. Ramesh and K. Haritha for their indelible affection and cooperation.

I wholeheartedly express my special thanks to my friends Mr. K. Viswaswar Reddy, B. V. Hari Prasad, C. Shivaji Rao S. Narasimha, H. N. Prasanna, S. Ramesh Babu and J. Laha for their cooperation and support.

Words seem to be inadequate to express the sense of gratitude surging in me towards my most affectionate and beloved father and family members for their
unbounded affection, encouragement and enthusiastic support throughout my academics.

Without the encouragement and participation of many people this work would never have accomplished. My personal and very deep appreciation goes to each of the extending hands and helping hearts.

Any exclusion in this acknowledgement does not imply ingratitude.

C.S. Sreenivasa Rao
