ACKNOWLEDGEMENTS

In the name of ‘Almighty God’ the great artisan and sustainer, who’s will alone let’s nature work and make things possible. His benevolence alone which provided me enough zeal to complete this Thesis.

I deem it a great privilege in expressing my deep sense of gratitude and profound regard to my esteemed supervisor Dr. Abrar Ahmad Khan, Associate Professor (Principal Investigator of DST and UGC Projects), Department of Botany, AMU, Aligarh. I am sincerely thankful to his valuable suggestions, constant vigilance, persistent patience, enduring interest, erudite thinking and his caliber to guide skillfully. I am highly indebted to him for being instrumental in inspiring me throughout the study.

I owe an expression of thanks to Prof. Arif Inam, Chairman, Department of Botany, Aligarh Muslim University, Aligarh for providing me all the necessary Departmental facilities and arrangements.

I extend my thanks and deep sense of gratitude to my seniors and lab colleagues Dr. Deepali Raghav, Dr. Samee Kausar, Ms. Rose Rizvi and Mrs. Mustabeen for their kind cooperation, good wishes and tremendous support during the work.

I feel pleasure while extending my acknowledgement to my Juniors Dr. Aiman, Neelima, Irfana, Sumaira, Sana, Nigar, Fakhra, Nazia, Nargis, Zehra and Farha for their encouraging attitude and spontaneous care.

Profuse thanks to my hostel seniors Dr. Faizul, Dr. Naina and Dr. Shagufta for their moral support and timely cooperation.

I feel lacking of words to express my gratitude to my dearest friends Dr. Minu, Dr. Iram, Dr. Tabassum, Dr. Bushra, Mrs. Aysha, and Hina Irshad whose constant help, inexhaustible source of inspiration, moral support, love and caring attitude were the hall marks in the completion of this work.
The words are not in my command to express my deep indebtedness to my adorable parents for their blessings, patience and inspiration. My overall success is the result of their affection and sacrificial devotion. Well deserved credit goes to my elder sisters Rubina, Shabina and elder brothers Shariq and Shakir for their affection, support, and motivation in my academic pursuit and social life.

I especially wish to thank my dear sister Shabnam who has poured immense love on me and have been a source of support and encouragement during the course of my study. She is just like the mirrors of the kaleidoscope who will always shine in the bottom of my heart.

I feel being privileged while extending my acknowledgement to my reverend in laws (Late) Mrs. Quraisha Begum, Mr. Asif Ali, Mrs. Masarrat Jahan and Mrs. Farhat for their affection, moral support and caring attitude.

I am also thankful to DST for providing me financial support in form of JRF in the project No- SR/SS/AS-49/2002. The award of fellowship by U.G.C. Government of India, New Delhi is also gratefully acknowledged.

Finally, with all faith in the Almighty I place this work in the hands of my examiner with hope that he will bear with the shortcomings that might have crept into this thesis inadvertently.
