Dedicated

To

MY PARENTS
ACKNOWLEDGEMENTS

With sincere and immense pleasure, I feel proud to express my deepest sense of gratitude and special thanks to my esteemed and worthy supervisors, Dr. Vinod Kumar, Assistant Professor, Department of Chemistry, M. M. University, Mullana, Ambala, Haryana, India and Dr. Devinder Kumar, Professor, Department of Chemistry, Guru Jambheshwar University of Science and Technology, Hisar, Haryana, India due to their valuable guidance and constant inspiration which enabled me to solve the difficulties encountered during the present investigation. Their scholarly suggestions, prudent admonitions, immense interest, constant help and affectionate behaviour have been a beckon of light for me. Their suggestions will remain with me as an inexhaustible source of scientific and social learning throughout my life.

Words are inadequate to express my profound sense of gratitude and thanks to Dr. Rajshree Khare, Professor and Head, Department of Chemistry, M. M. University, Mullana, Ambala for her kind co-operation and valuable advice besides providing laboratory facilities.

I sincerely acknowledge my grateful thanks to Dr. Harish Kumar Sharma, Professor and Registrar, M. M. University, Mullana, Ambala for his motivation throughout my research progress.

I acknowledge my sincere thanks to Prof. R. K. Gupta, Chairman, Department of Chemistry, Guru Jambheshwar University of Science and Technology, Hisar, providing the necessary laboratory facilities.

I am immensely grateful to Dr. Avinash Bajaj, Assistant Professor, Laboratory of Nanotechnology and Chemical Biology, Regional Centre for Biotechnology, Gurgaon, Haryana, India for providing results of anticancer activity and mass spectra; Dr. Chetan Sharma, Assistant Professor, Department of Biotechnology, M. M. University, Mullana, Ambala for providing the results of antimicrobial screening; Dr. Sundeep Jaglan, Scientist, Quality Control and Quality Assurance Division and Academy of Scientific & Innovative Research (AcSIR), CSIR-Indian Institute of Integrative Medicine, Jammu, India and Girish Kumar Gupta, Assistant Professor, Department of Pharmaceutical Chemistry, M. M. University, Mullana, Ambala for his valuable suggestions.

It is my pleasure to thank my colleagues Dr. Mahavir, Dr. Vikas, Dr. Vikramjeet Singh, Dr. Sumit Aggrawal, Sandeep Kumar, Manish Kumar, Jony, Bablu, Deepak Yadav, Parteek Tyagi, Monika, Parveen, Ajay Prakash, Ajay Sharma, Anil Verma, and Susheel for creating research atmosphere whenever needed.
Acknowledgement

One cannot forget the strength, support that one gets from ones family. With gratitude and reverence, at this moment my heart goes toward my beloved mother Smt. Kamlesh Devi and father Sh. Krishan Pal Singh who waited all these years to see me reaching at this stage. Their patience, prayers and blessings always gave me new passion to do the things in a perfect manner. Today, I dedicate my thesis to my loving parents. I would like to express my deepest gratitude to my elder brother Mr. Kulvant Singh and my bhabhiji Mrs. Shalu, nieces Yashasvi and nephew Karmanyya for being with me. I also acknowledge and admire the love, confidence and moral support bestowed on me by my wife–Mrs Jaya.

I am also thankful to University Grant Commission for providing financial assistance in term of fellowship, chemicals and other necessary materials. Lab facilities provided by G.J. University of Science and Technology, Hisar and M. M. University, Mullana, Ambala are greatly acknowledged. I am highly grateful to CIL, G.J. University Science and Technology, Hisar and RSIC, Panjab University, Chandigarh for providing help in getting FT-IR, NMR and Mass spectra.

I am equally thankful to all the non-teaching and administrative staff for extending their help and cooperation. I would also like to thank to all my well-wishers who directly or indirectly helped me in compiling this research work.

(KULDEEP SINGH)
