Acknowledgement

I hereby express my heartiest sense of gratitude to Dr. Jai Prakash Keshri, Senior Lecturer in Botany, Burdwan University for supervising the present work.

I owe a particular debt of solemn gratitude to my teacher Prof. Pranjit Sarma Ph.D. (Auckland) F.L.S. for his constant encouragement, valuable suggestion, comments, criticism, advice and enthusiastic endorsement to the work.

I recall with sincere appreciation to Sudip Da for his constant encouragement, inspiration advice both in academic and other sphere of life. I have received much needed support from him.

I acknowledge with deep appreciation to Mr. Golam Mustafa and Mr. A. K. Chakraborty, Teachers of this department for their selfless help during my work.

I wish to express my deep gratitude and indebtedness to Prof. P. K. Bhattacharyya, Head, Department of Botany; Prof. Kajal Gupta, Co-ordinator, DSA, Botany Department, Burdwan University for providing laboratory facilities during the work.

I am extremely grateful to Prof. P. K. Pal, for his valuable suggestions and photomicrographic work during the study. I also acknowledge the active help in photomicrographic works, received from Prof. G. L. Tewari (Allahabad University) Prof. P. K. Chowdhury and Mr. Nirmalya Das of Dept. of Zoology, Burdwan University.

In this opportunity I must tender my sincere thanks to Prof. G. G. Maity of Kalyani University, for his suggestions regarding nomenclatures of taxa.

I would like to express with deep appreciation to Dr. J. Konar, Teacher in this department for his heartily co-operation in limological studies. I wish to express my sincere appreciation to Dr. M. N. Sannyal (Ramananda College, Bishnupur) for his generous help in many possible ways besides the identification for aquatic angiosperms.

I express my sincere appreciation to all other teachers of this department for their different helps during my work. I wish to express my special thanks to Prof. D. N. Tewari, Varanasi; Prof. G. L. Tewari, Allahabad; Prof. P. A. Tyler, Australia; Prof. T. Yamagishi, Japan; Prof. G. E. Dillard, USA; Prof R. Lenzenweger, Austria;
Y. Therezien, France and Prof. A. K. M. N. Islam, Bangladesh for providing huge literature and active support to carry out this investigation.

The endeavours of Dr. (Mrs.) Aparna Karmakar and Dr. Ashoke Karmakar for fetching the books and relevant literature from Japan is high appreciated.

I am indebted to all my research colleagues and friends Gautam, Dipjoti, Sudip, Irani, Mahasheweta, Piyali, Monoranjan Da, Sisir, Jayanta, Indrojeet, Arindam, Bodru, Gita, Suprokash, Archan, G. Bala, Ananda, Sudip Some, Angshuman and his wife Suchismita for their constant help and encouragement during the tenure of my work.

My whole hearted thanks go to Mr. Golam Moid and Golam Moktakdir who typed my thesis with much care and patience. I also acknowledge to Raju and other office staffs of this department for their different help during this work.

Financial assistance from University Grants Commission (UGC) New Delhi in pursuing the present research work is highly acknowledged.

Finally I wish to convey my deep sense of love and regards to all my family members for their patience and contribution to relieve me from my house hold responsibilities during the research work.
