

## PREFACE

The works that have been tried to be documented in the present thesis entitled "*Study of solvation in various media by monitoring spectroscopic and thermodynamic properties*" are the results of the author's tenure as a research fellow in the Department of Chemistry, The University of Burdwan, under the direct supervision of Prof. Sanjib Bagchi.

I found great pleasure to express my deep respect and solemn gratitude to my supervisor, Dr. S. Bagchi, Professor of Chemistry, Burdwan University, Burdwan, (presently in IISER, Kolkata) for his constant encouragement, valuable suggestions, comments and criticism. Otherwise, it would never have come to fruition.

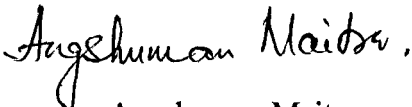

I wish to take the opportunity to extend my sincere gratitude to Prof. B. K. Ghosh, Prof. M. Banerjee, Prof. A. K. Mukherjee, Dr. B. Mandal of this department for their kind co-operation, constant help and inspiration. I would also like to place on record my indebtedness to other teachers of this department for their kind advice and enthusiastic endorsement to the work.

It is a pleasure to acknowledge with thanks the generous help and kind cooperation of Dr. P. K. Das, Dr. N. Ray, Dr. M. Shannigrahi, Mr. J. Basu, Ms. N. Deb, Mr. H. Singha, Mr. A. Ghosh of our laboratory and many of this department for their encouragement and kind co-operation in all respect.

I acknowledge Department of Chemistry, Burdwan University for infra-structural facilities. This work would not have been completed without the help of a number of people who wish to remain anonymous. I also acknowledge the Managing Committee of my Institution (Boinchi B. L. Mukherjee's Free Institution) for kind permission to carry out the research project.

And finally, I thank all my family members (especially my wife Smt. Sharmistha Maitra) for their support, extreme patience, unbound inspirations and understanding.

Dated: 27.12.07

  
Angshuman Maitra
