ACKNOWLEDGEMENT

Words are inadequate to express my deepest gratitude to those people who provided selfless support, which made me to come up with this thesis. I would like to record my indebtedness to:

Dr.K.Chockalingam, Vice Chancellor, Manonmaniam Sunadarnar University and Dr.T.Tamizhchelvam, Research Coordinator for their support during the course of my research.

Prof. Dr. L.Ganesan, my Guide, for his intellectual and insightful orientation that led me in the right path. He has initiated my interest in the field of computer vision. My special thanks to his wife and children for their generosity in letting me very often to take up their family time.

Prof. Dr.K.Dharmalingam, my Co-guide, for his consistent encouragement right from the beginning. In fact, he has propelled me into this course of research.

Thiru.K.Ramasamy, Chairman, Thiru.K.R.Arunachalam, Management Committee member, Prof.S.Kannappan, Director, Dr.Kn.K.S.K.Chockalingam, Principal and Prof.P.Brahmanayagam, Head, E.I.E. Department of National Engineering College for having permitted me to utilize the college resources for the research work.

Dr.J.Ezhilventhan, Dr.I.Nancy Thanu and Dr.Andrew for their support and scrutiny of my results with CT liver images. Our collaboration broadened my interest in the area of medical image analysis.

Prof.V.S.Raghavan, Mr.A.Abudhahir, Mr.S.Sankar Ganesh, Mr.K.Shankar, Mr.I.Jackson Daniel, Mr.S.Subramaniam and Mr.C.Srinivasan for their suggestions and comments, which shaped this thesis. Mr.V.Suresh, my colleague and Mr.V.Muthukrishnan, my brother for their strenuous efforts while preparing the thesis.

My parents, Mr.S.Venkatachalam and Mrs.A.Marakatham who taught me first to see, understand and live in this world.

My family, M.Goma Bharathi, V.S.Aparajithan and V.S.Janani Yugha Surya for their sacrifices and for keeping my living space harmonious and musical. Their song of love only leads me positively through the passage of time.
