ACKNOWLEDGEMENTS

I thank God Almighty for having given me strength and wisdom to carry out this work successfully.

I express my sense of gratitude to Dr. V. Umayoru Bhagan, Ph.D., Reader in Chemistry, S.T.Hindu College, Nagercoil for effective guidance, valuable suggestions, useful discussions and sincere encouragements during the entire course of study.

I am greatly indebted to Dr. P. Natarajan, Ph.D., D.Sc., Professor and Head, Department of Aquatic Biology and Fisheries, University of Kerala, Trivandrum, for suggesting the area of investigation, valuable guidance, useful discussions, piercing insight at every stage of the study and sincere encouragement with keen interest and sparing his precious time inspite of his multifarious responsibilities.

I am grateful to the Principal and the Management, S.T.Hindu College, Nagercoil for granting permission and providing all the facilities to carry out the work in their institution.

I am extremely thankful to all the staff members of the Department of Chemistry, S.T.Hindu College, Nagercoil for the favour extended and the encouragement given.
My sincere thanks are due to the Principal and the Management of Sree Devi Kumari Women's College, Kuzhithurai, for their co-operation offered to me in carrying out my work successfully.

I wish to express my special thanks to Tmt Uma Natarajan and Tmt S. Jagathamma for their help, suggestions and support.

I am indebted to my parents for their kind blessings. My most sincere thanks are due to my husband Thiru A. Mahadevan Pillai who took special care to shape up my research career. I am indebted to my brother-in-law Thiru A. Kulathooran Pillai and my brother Thiru A. Subramonia Pillai who stood the test of time with us.

I place a word of thanks to my children Sharan and Shabin for their untiring support for the effective completion of this work.

I am also thankful to Thiru V. Moni, Nagercoil, for his excellent documentation and execution of this work.

B. INDIRANI
