ACKNOWLEDGEMENT

This piece of acknowledgement gives me an immense pleasure and unique opportunity to feel myself elated and elevated to extend my profound sense of gratitude and gratefulness to my respected supervisor Dr. P. VENKATACHALAM, Associate Professor, Department of Biotechnology, Periyar University, Periyar Palkalai Nagar, Salem-636 011, TN, India. This work would not have been possible without his scholastic guidance, constructive criticism, constant encouragement, instinctive attention, confidence-imbibing attitude inspiring suggestions and above all for his broadness of giving me free hands on working experience and in making use of sophisticated laboratory facilities throughout the course of investigation and preparation of this manuscript smoothly and successfully.

I would like to express my greatest appreciation and sincere thanks to Prof. P. Perumal, Head, Department of Biotechnology, Periyar University, Periyar Palkalai Nagar, Salem for his immeasurable moral support, sincerity, encouragement and provide facilities during the course of my study.

My deepest appreciation also goes to my Co-Guide Dr. V. Manju, Assistant Professor, Department of Biochemistry, Periyar University, Periyar Palkalai Nagar, Salem-636 011 for her sound advice, constant and useful suggestions throughout my research work.

I express my heartfelt thanks to Doctoral committee members Dr. N. Nagalakshmi, Professor, Horticultural Research Station, Tamil Nadu Agricultural University, Yercaud, Salem-636 602 and Dr. T. Parimelazhagan, Associate professor, Department of Botany, Bharathiyar University, Coimbatore-641 046, for their valuable suggestions and encouragement in completing my research work.

My special thanks go to Dr. Shivendra Vikram Sahi, Professor, Department of Biology, Western Kentucky University, Bowling Green, KY 42101, USA for his generous help with heavy metal analysis and SEM with EDX observation in his laboratory and for his limitless guidance.
I sincerely wish to express my thanks to Dr. N. Elangovan, Dr. P. Indrarulselvi, Dr. D. Natarajan and Dr. S. Sivakumar, Assistant Professors, Department of Biotechnology, Periyar University, for their support and inspiring suggestions in completing my research work.

I specially thank my colleagues and friends especially Mrs. K. Kalaivarasi, Mr. M. Thyagarajan, Mrs. T. Kayalvizhi, Ms. P. Sangeetha, Mr. R. Manikandan and Mr. K. Murali Krishna who accompanied me in my research work and extended their full corporation in throughout my research activities.

I wish to thank my juniors Mr. G. Prasannaraj, Mrs. A. Sujima Anbu, Mr. D. Mahendran, Mr. R. Raja, M. Sc students and M. Phil Scholars for proving a stimulating and funfilled environment in completion of this work.

I express my thanks to all the staff members of Periyar University, for their official assistance throughout my research period.

I am very grateful for having limitless support from my family. I would like to thank my father for being my greatest inspiration, my mother for giving me tremendous empathy and encouragement and my lovely daughter for her laughter being my best stress-relief therapy. Last but certainly not least, I would not have been able to complete this undertaking without the infinite support from my husband. I thank him for being so patient, understanding, supportive and generous.

Gratitude can never be expressed in words, but I do not have any other mean of doing so. The conceptualization of this work and it’s metamorphosis into reality has been a long journey. I thank the almighty and express gratitude to all the people who paved the path with me.

(S. MALAR)
