Chapter – 1
Introduction

1.1 Introduction
1.1.1 Objectives of the study
1.1.2 Scope of the Research

1.2 Personality

1.2.1 What is Personality?

1.2.2 Defining Personality

1.2.3 Theories of Personality

1.2.3.1 Trait theories
1.2.3.2 Type theories
1.2.3.3 Psychoanalytic theories
1.2.3.4 Behaviorist theories
1.2.3.5 Social cognitive theories
1.2.3.6 Humanistic theories
1.2.3.7 Bio-psychological theories

1.2.4 Gender differences

1.2.5 Neuroticism

1.2.6 Personality Disorders

1.2.7 Personality Tests

1.2.8 Characteristics of Personality

1.2.9 The Study of Personality

1.2.10 Extraversion

1.2.11 Introversion
1.2.12 Eysenck's theory

1.2.13 Biological factors
1.2.14 Behavior
1.2.15 Extraversion, introversion, and happiness
1.2.16 Components of Personality
1.2.17 Some of the fundamental characteristics of personality include

**1.3 Quality of Life**

1.3.1 What is Quality of Life?
1.3.2 Quality of Life: A Systems Model
1.3.3 Dynamic Fitness
1.3.4 Optimizing Needs
1.3.5 Attitudes to Life
1.3.6 Meta needs
1.3.7 Social Needs
1.3.8 Primal Needs
1.3.9 Quality of life (healthcare)
1.3.10 Why is it important?
1.3.11 Future Implications of QOL
1.3.12 Research Pertaining to QOL

**1.4 Suicide Tendency**

1.4.1 What is Suicide?
1.4.2 Overdoses and Suicide
1.4.3 Suicide Rates as Social Facts
1.4.4 Social Explanation
1.4.5 Four Types of Suicide

...3...
1.4.6 Overview of Suicide

1.4.7 Diagnostic and treatment considerations

1.4.8 Terminology of Suicide

1.4.9 Etiology of Suicide

1.4.9.1 Medications

1.4.9.1.1 Anticonvulsants

1.4.9.1.2 Pain medication

1.4.9.1.3 Smoking cessation medications

1.4.9.2 Mental illness

1.4.9.2.1 Depression

1.4.9.2.2 Schizophrenia

1.4.9.2.3 Anxiety disorders

1.4.9.2.4 Substance abuse

1.4.9.2.5 Delirium and dementia

1.4.9.2.6 Bulimia

1.4.9.3 Sex

1.4.9.4 Genetics

1.4.9.5 Family history

1.4.9.6 Availability of firearms

1.4.9.7 Physical illness

1.4.9.8 Life experiences

1.4.9.9 Economic instability and status

1.4.9.10 Media and the Internet

1.4.9.11 Psychodynamic formulation

1.4.10 Impulsivity of Suicide
1.4.11 other risk factors
   1.4.11.1 Marital status
   1.4.11.2 Geographic altitude
   1.4.11.3 Incarceration and hospitalization
   1.4.11.4 Lack of daylight
   1.4.11.5 Serum cholesterol
   1.4.11.6 Sleep problems

1.4.12 Religion-related demographics

1.4.13 Race-related demographics

1.4.14 Sex-related demographics

1.4.15 Age-related demographics

1.4.16 Occupation-related demographics

1.4.17 Seasonal variances in suicide

1.4.18 Suicidal ideation

1.4.19 Suicide plans

1.4.20 Purpose of suicide

1.4.21 Signs and risk factors

1.4.22 Suicide-related characteristics

1.4.23 Affect of Suicide

1.4.24 Thoughts of Suicide

1.4.25 Suicide and homicide

...5...
Chapter-2

View of Literature

2.1 Introduction:

2.2 The re – observation of the related research work done beforehand

2.3 Review of Personality

2.4 Review of Quality of Life

2.5 Review of Suicide Tendency

Chapter – 3

Research Methodology

3.1 Introduction

3.2 Statement of Problem

3.3 Aims of the Study

3.4 Hypothesis of the research

3.5 Research Variables
   3.5.1 What is Variables?
   3.5.2 Independent Variable
   3.5.3 Dependent Variable
   3.5.4 Controlled Variable
   3.5.5 Variable Variant

3.6 Population of the study

3.7 Selection of the Sample

3.8 Research Design

3.9 Tools for collecting the data
   3.9.1 Personal data Sheet
   3.9.2 Modaslay Personality Inventory
   3.9.3 PGI Quality of Life Scale
   3.9.4 Suicidal Tendency Scale

3.10 Collection of the Data

3.11 The process of the data analysis
Chapter – 4

ANALYSIS OF THE DATA & DISCUSSION OF THE RESULT

4.1 Introduction

4.2 Personality

4.2.1 Examination by factorial design of the effect over the Personality of the Gender, Degree and Type of College of the trainee Students.

4.2.1.1 Checking of the Personality in context of the Gender of the College Students.

4.2.1.2 Checking of the Personality in the context of their Degree of the trainee Students.

4.2.1.3 The examination of the Personality in the context of the Type of College of the trainee Students.

4.2.1.4 The examination of the Personality in the context of the interaction of the Gender and Degree of the College Students.

4.2.1.5 The examination of the Personality in the context of the interaction between Degree and Type of College of the trainee Students.

4.2.1.6 The examination of the Personality in the context of the interaction between Gender and Type of College of the trainee Students.

4.2.1.7 The examination of the Personality in the context of the interaction between Gender, Degree and Type of College of the College Students.

4.2.2 Examination by t-test of the effect of the personal variables of the trainee Students over their Personality. The personal variables like Residential area and Type of Family.

4.2.2.1 The examination of the Personality of the trainee Students in the context of their Residential area.

4.2.2.2 The examination of the Personality of the trainee Students in the context of their Type of Family.

4.3 Quality of Life

4.3.1 Examination by factorial design of the effect over the Quality of Life of the Gender, Degree and Type of College of the trainee Students.

4.3.1.1 The examination of the Quality of Life in context of the Gender of the trainee Students.

4.3.1.2 The examination of the Quality of Life in the context of their Degree of the trainee Students.
4.3.1.3 The examination of the Quality of Life in the context of the Type of College of the trainee Students.

4.3.1.4 The examination of the Quality of Life in the context of the interaction of the Gender and Degree of the trainee Students.

4.3.1.5 The examination of the Quality of Life in the context of the interaction between Degree and Type of College of the trainee Students.

4.3.1.6 The examination of the Quality of Life in the context of the interaction between Gender and Type of College of the trainee Students.

4.3.1.7 The examination of the Quality of Life in the context of the interaction between Gender, Degree and Type of College of the trainee Students.

4.3.3 The examination of the effect of the personal variables of the College Students over the Quality of their Life. By using $t$-test.

4.3.3.1 The examination of the Quality of Life of the trainee Students in the context of their Residential area.

4.3.3.2 The examination of the Quality of Life of the trainee Students in the context of their Type of Family.

4.4 The Suicide Tendency

4.4.1 Examination by factorial design of the effect over the Suicide Tendency of the Gender, Degree and Type of College of the trainee Students.

4.4.1.1 The examination of the Suicide Tendency in context of the Gender of the trainee Students.

4.4.1.2 The examination of the Suicide Tendency in the context of their Degree of the trainee Students.

4.4.1.3 The examination of the Suicide Tendency in the context of the Type of College of the trainee Students.

4.4.1.4 The examination of the Suicide Tendency in the context of the interaction of the Gender and Degree of the trainee Students.

4.4.1.5 The examination of the Suicide Tendency in the context of the interaction between Degree and Type of College of the College Students.

4.4.1.6 The examination of the Suicide Tendency in the context of the interaction between Gender and Type of College of the College Students.

4.4.1.7 The examination of the Suicide Tendency in the context of the interaction between Gender, Degree and Type of College of the trainee Students.

4.4.2 The examination of the effect of the personal variables of the College Students over the Suicide Tendency. By using $t$-test.

4.4.2.1 The examination of the Suicide Tendency of the College Students in the context of their Residential area.

4.4.2.2 The examination of the Suicide Tendency of the College Students in the context of their Type of Family.

4.5 The search of the level of Personality means of Quadrant.

...18...
4.5.1 The examination by \( t \) test of the effect of the level of Personality over the Quality of their Life of trainee Students.
4.5.1.1 The examination of Quality of life of trainee Students in the context of their higher and medium level Personality.
4.5.1.2 The examination of Quality of life of trainee Students in the context of their medium and lower level Personality.
4.5.1.3 The examination of Quality of life of trainee Students in the context of their higher and lower level Personality.
4.5.2 The examination by \( t \) test of the effect of the level of Personality of trainee Students over the Suicidal Tendency.
4.5.2.1 The examination of Suicidal Tendency of trainee Students in the context of their higher and medium level Personality.
4.5.2.2 The examination of Suicidal Tendency of trainee Students in the context of their medium and lower level Personality.
4.5.2.3 The examination of Suicidal Tendency of trainee Students in the context of their higher and lower level Personality.
4.6 The search of the Correlation between the numerical data of the Personality, the Quality of Life and the Suicidal Tendency of the trainee Students.

Chapter – 5

Conclusions, Limitation & Implications of the Research

5.1 Introduction

5.2 The Conclusion of the Research work

5.3 The Limitation of the Research

5.4. Recommendations for the future Research

5.5. The Implication of the Research
