*** ACKNOWLEDGEMENTS ***

Primarily, I would like to express my profound gratitude to Dr. (Mrs.) Uma V. Chudasama, Professor, Applied Chemistry Department, Faculty of Technology and Engineering, The M. S. University of Baroda, who constantly encouraged, inspired and guided me right from the beginning of this work. Her receptive attitude, untiring enthusiasm and positive approach will always remain a source of inspiration. Her deep passion for perfection of work has not only taken care of my present study, but shall always be a guide to me in future.

I wish to express my gratitude to The M. S. University of Baroda for providing research fellowship.

I wish to express my gratitude to the Dean, Faculty of Technology and Engineering and to the Head, Applied Chemistry Department for providing me the required facilities to carry out my research work.

My sincere thanks to Dr. V. K. Shahi, Scientist E2, Electro-Membrane Processes Division, Central Salt and Marine Chemicals Research Institute (CSMCRI), Council of Scientific & Industrial Research (CSIR), Bhavnagar for providing me research facilities for fabricating membranes, the work contributed in Chapter 4 in the thesis.

I also wish to express my gratitude to Dr. S. K. Shukla, Director, Hydro Chem India Pvt. Ltd., Vadodara, for providing phosphonic acids, basic raw material for the synthesis of materials and for his kind co-operation and support during the course of my research work.

I wish to express my gratitude to the management of Sud-Chemie India Pvt. Limited, for providing me instrumentation facilities. My thanks to The Head, Department of Metallurgical and Materials Engineering, Faculty of Technology and Engineering, The M. S. University of Baroda, for helping me with SEM, TGA and X-ray analysis and to SAIF, IIT Mumbai for elemental analysis by ICP-AES and CHN analysis.

I extend my sincere thanks to all the teaching staff members who have helped me in many ways during my research work.
I had the pleasure of working with an excellent group of lab mates, Dr. Parimal Patel, Dr. Rajesh Patel, Mr. Tarun Parangi, and Mr. Shrinivas Ghodke for making my work an enjoyable one. I would like to thank my lab mates for all the help rendered to me in each and every step of my work right from literature survey to compilation of the thesis and the useful suggestions and support they gave me at various stages of my research work.

Thanks are also due to Dr. Mayur Patel, Mr. Gautam Patel, Mr. Deepak Singh, Mr. Umesh Chaudhari and Mr. Himanshu Bhatt and to all my fellow research mates who have maintained a cordial and supportive environment during the research period. I would also like to thank the research group at CSMCRI, specially Ms. Tina Chakrabarty, Prakash Patel and Amarnath Jasthi who have maintained supportive environment during the research. I am also thankful to friends and temporary teaching staff members at the Department of Chemistry who helped in various ways.

I cannot forget the cooperation extended to me by the non-teaching staff members of the Applied Chemistry Department.

I thank my family members for their love and encouragement, who above all have taught me that patience, determination, persistence and faith are the keys to success.

There were so many people who did so many things to help me out at critical times. In this short space, it is impossible to acknowledge all of them individually. I thank all of you, my friends, colleagues and well wishers, who have been always with me, in times of need.

(Brijesh Shah)
