DEDICATED TO

MAA PAPA
ACKNOWLEDGEMENTS

This thesis would not be justified without the help of many people. Their support and tolerance made me achieve this target of my life.

First and foremost, I would like to thank my guide and a fatherly figure, who has stood beside me during the entire period from my masters till the completion of this thesis, Dr. P. C. Mankodi. I thank him with deep gratitude to be encouraging and supportive and help me during all the troubles during the PhD tenure.

I would like to thank the then Head, Department of Zoology, Dr. Geeta S. Padate, to allow me to use the laboratory facilities and extend necessary facilities during my research work.

I sincerely thank Dr. James Reimer, renowned for his work on Zoanthids along the Tropical region of the world for his help in the identification of Zoanthids. It was indeed the best to compile this thesis to this extent. His constant encouragement to work from Indian coast has inspired to continue this work and contribute towards the Zoanthids of the world.

My sincere thanks to Dr. Pragna Parikh, who has been encouraging since the inception of my PhD. I would also like to acknowledge Dr. K. D. Vachhrajani for his guidance and help during the tenure.

I am extremely thankful to UGC for providing me with Research Fellowship in Science for Meritorious Students (RFSMS) under the Basic Scientific Research Scheme.
I am thankful to all my teachers and staff members, Teaching and Non-teaching, of Department of Zoology and Faculty of Science, The Maharaja Sayajirao University of Baroda, to mould and encourage me during my entire tenure of Higher Education. My teachers who taught me in my Bachelors, Masters and who have been supportive are duly acknowledged.

I feel blessed to have the most supportive and encouraging friends without whose support my PhD would have been incomplete. My seniors Dr. Chandresh S. Dave, Dr. Nayruti S. Trivedi, Dr. Hitesh Kardani and Ms. Devanshi Joshi, whose work inspired me to take up Marine Ecology as topic for my research. Their constant motivation has helped me achieve my dream. My seniors of the department, Dr. Ankita N. Parikh, Dr. Ayaz Rangrez, Dr. Bhavika Desai, Dr. Kiran Morya, Mr. Jaymesh Thadani, Ms. Bhavya Barot, Dr. Sandhya Godshe, Mr. Mayurdan Gadhvi and Mr. Manan Shukla have helped me a lot during the initial phase of my research. I am grateful to Mr. Parth Pandya, Mr. Ankur Upadhyay, Mr. Azaz Sidat, Ms. Reshma Solanki and Mr. Jignesh Trivedi and my labmates, Ms. Kinjal Shah, Ms. Pinal Shah and Ms. Mrunali Prajapati for extending their help whenever required and accompanying me at the field work. My work would have been incomplete if Mr. Kangkan Jyoti Sharma, Mr. Kapil Kumar Upadhyay and Ms. Meenu Krishna would not have helped me for the associated fauna during their dissertation. I thank Mr. Vishal Ukey and Mr. Kushal Chavare to make me understand the geological part, the substratum characteristics and help me in map preparation for the study sites. I am indebted to Ms. Prutha Mankodi and Ms. Bela Mankodi to make me feel like a family.
The people without whom this work would not have been in this shape are Dr. Shalaka S. Sadekarpawar, Dr. Dave, Dr. Bhavik Patel, Mr. Manthan Tailor and Mr. Parth Tailor. They have been with me since the beginning of this work and constantly supported me during my highs and lows. The encouragement and support of these during the final phase of this thesis, their patience and tolerance power were the strength to me for the completion of the thesis. I thank these Angels to be a part of my life.

Finally, nothing is complete if I am unable to express gratitude to my mother Ms. Maya Pandya; Mr. Manoj Pandya, my father; Mr. Jwalant and Ms. Jinny, my Brother and Sister-in-law and my sweet nephew Javin, their continuous support and faith, to achieve the dreams and the freedom to work on my desired topic never faded. It’s my mother and my brother because of whom I am able to fulfil my dream to have a PhD. I thank all my family members to support me during the research work, especially my sister Ms. Jayati Bhatt.
