ACKNOWLEDGEMENTS

God is our refuge and strength, when we need it most. I would like to express my deep gratitude to the Almighty God who bless me and give me a path to accomplish this work. His divine powers always help those who believe in HIM. It takes more than determination and hard work for the completion of this thesis. Supports I received from many people throughout my research undeniably played an important role.

At the first place, I wish to express my gratitude to most respected Dr. Anupam Khanna who provided me an opportunity to undergo this thesis (work) and helped me in completing this work with ease & continuous motivation, encouragement and timely guidance. The blessing, help and guidance given by him time to time will carry me a long way in the journey of life on which I am about to embark.

I am very much thankful to most Kind Hearted Mr. Tarsem Garg, Hon’ble Chancellor, Maharishi Markandeshwar University, Mullana and Respected Dr. J. K. Sharma, Principal, Maharishi Markandeshwar Engineering College, Mullana for providing all necessary facilities in university campus to complete this research.

I express my profound sense of reverence to Dr. Deepak Gupta, Professor & Head, Department of Mathematics, Maharishi Markandeshwar University, Mullana. His encouragement helped me to keep focused throughout the process, providing guidance and motivation that often meant progress rather than stagnation, challenging me to think critically and outside my comfort zone, and honing my research skills. The insightful comments, inspiration and superior knowledge undoubtedly resulted in significant contributions to the development of this thesis. I will forever indebted for his understanding and support to help me go through difficult and challenging times of being full time student in university campus.
In addition, my sincere gratitude is reserved for Dr. M.S. Saroa, Dr. Vishal Gupta, Dr. Nidhi Sharma, Dr. Sachin Kaushal and all the Faculty Members of Department of Mathematics, Maharishi Markandeshwar University, Mullana for their essential guidance and blessings during my work.

I pay special thanks to “Rachna Sachdeva”, Research Scholar, Panjab University for her cooperation, contribution in computer programming and profitable suggestions given to me.

I want to express my deepest gratitude “Sh. Balkar Singh” (My father) and “Smt. Bir Kaur” (My mother) for their continuous help, permanent enthusiasm, friendship, and for being with me on this long journey of contemplation, tears and sweat.

I want to thank my loving brother “Parvinder Singh” for his co-operation & giving valuable ideas related to completion of thesis and computer work. Without my brother’s effort, I would not be able to do any kind of computer’s work. I want to specially thank to my Mausa ji “Col. Baldev Singh” for their affectionate support and love during this course of study.

It is feeling of great pleasure that I must like to thank “Sh. Darbara Singh” (My late Paternal Grandfather), “Smt. Sheel Kaur” (My Paternal Grandmother), “Sh. Preetam Singh & Smt. Ranjit Kaur” (My Late Maternal Grannies) for their continuously blessings and immortal moral support.

This thesis was definitely a challenge and did not eventuate without many sacrifices. For Myself, this thesis has been a personal accomplishment which I hope will benefit others as much as it has to me.

Narinder Kaur
