It is with great pleasure that I express my deep sense of gratitude to Dr. S. Shashidhar, Professor and Director, School of Biosciences, Mahatma Gandhi University, Kottayam, for giving me the opportunity to work on this project and for extending all the facilities to carry out the work. It has been a great privilege for me to work under the able guidance of Dr. S. Shashidhar. Words cannot express my heartfelt gratitude for his unceasing concern, constant help, keen criticism, and encouragement during every stage of the work. I am extremely thankful to him for suggesting the topic and for his excellent supervision, advice and guidance.

My heartfelt thanks are due to Prof. K. Chandrasekharan Nair, the late Prof. K. Lakshmi. Amma, Dr. C. Kesavachandran and Smt. Chandralekha L. who have spared no pains, in guiding me with all sincerity, support and encouragement.

With a deep sense of gratitude, I thank Prof. T. A. Rauf and family for the inspiration and encouragement.

This thesis would not have been possible without the total participation of all the schoolchildren and their parents along with school authorities. I express my deep sense of gratitude towards them.

I am expressing my sincere thanks from the depth of my heart to the Faculty members, especially Dr. Jhala, Professor and Head, Department of Paediatrics; Dr. Sebastian and family, Department of Physiology, Medical College & S. S. G. Hospital, Vadodara along with residents, for their valuable criticism, suggestions and whole-hearted encouragement extended to me during my research period.

I am also thankful to the authorities of Integrated Child Development Scheme (UNICEF), Kerala; National Institute of Nutrition, Hyderabad; National Medical Library, New Delhi for the timely help for conducting the study.
I am also thankful to all the teaching staff of the School of Biosciences, Mahatma Gandhi University, for their encouragement.

My thanks are also due to Mr. Bose T. S., Mrs. Reji S. L. (Medical technologists) and other staff and members of School of Biosciences, for their help and co-operation.

My stay in the lab as well as in the campus with friends for almost five years has been extremely pleasant and memorable. I would like to thank all of them for being very helpful, particularly to my lab-mates, Dr. Sree kumar R., Dr. Susan Chandy, Dr. Sanil R., Mrs. Jyothi M., Ms. Bezy Mathew, Mrs. Sindhu, Mrs. Suprabha, Mrs. Indu, Ms. Remya, Mr. Rajendran and Sr. Gr. lecturers Dr. Geetha B., Mrs. Reethamma K. V. and Mrs. Pankajam. Mr. Sudarslal S. and Mr. Arun A. Rauf require special mention for their brotherly affection.

I wish to place on record my gratefulness and gratitude to Mahatma Gandhi University, for giving University fellowship for the study.

Mr. Benoy Varkey, B & C Technologies, Kottayam requires my special thanks for constant monitoring and fault repair service of the spirometer throughout the study.

I would like to thank Mr. Robin, M/s Copy Write, Ettumanoor, for the perfect realisation in word processing and documentation of this thesis.

Last, but not the least, I express my deep sense of gratitude and salutations to my beloved family and loving friend Ms. Minu, all of whose untiring and relentless support gave warm impetus and mental courage beyond the academic scene.

R. Harikumaran Nair
