ACKNOWLEDGEMENTS

With immense pleasure the author expresses his sincere, profound and deep sense of gratitude to his teacher and research supervisor, Dr. T. Sreenivasulu Reddy, M.Sc., Ph.D., Reader in Chemistry, Sri Krishnadevaraya University, Anantapur for his invaluable, illuminating and inspiring guidance through personal care, keen interest, academic, educative training, constant encouragement by his stimulating and enlightening discussions throughout the course of the research work.

The author takes this opportunity to express his sincere thanks to his dearest friend Mr. S. Haribabu, Research Scholar, AC College, Madras, who has been a personal source of inspiration to him through his unstinted co-operation, support and encouragement throughout the period of his educational career.

The author is grateful to Dr. L.D. Prabhakar, his senior research colleague and at present Lecturer, SV Engineering College, Madras, for his kind co-operation and perpetual help rendered.

The author wish to thank the authorities of Central Drug Research Institute, Lucknow for providing NMR and C H N analysis.
The author expresses his thanks to all his colleagues and faculty members - in particular to Mr. Usmahash, Research Scholar, Dr. K. Mohana Raju, Lecturer in Polymer Science and Dr. K. Hussain Reddy, Lecturer in Chemistry, Sri Krishnadwaraya University, Anantapur.

The author expresses a special word of heartfelt and profound feelings of gratitude to his parents and sisters for their encouragement on all occasions.

Finally thanks are due to Sri V. Sahadevan for neatly typing the dissertation.

Gollapudi V. R. Murthy.
