## Contents

Chapter-1: Introduction 1

Chapter-2: Survey of Literature of Selected drugs and objectives of the present investigation
   Section(i): Survey of literature 6
   Section(ii): Objectives of the present Investigation 27

Chapter-3: Materials and instruments
   Section(i): Preparation of Reagents and solutions 30
   Section(ii): Brief Description of instruments employed 33
   Section(iii) A Brief profile of selected drug 36

Experimental investigations

Chapter-4: Condensation reaction method for drug assay 44
   Section (i) Assay cisapride 46
   Section(ii) Assay of sulfamoxol 54
   Section (iii) Assay of dapsone 62

Chapter-5 Difference Spectrophotometry method for drug assay 71
   Section(i): Assay of paracetamol 72
   Section(ii): Assay of cetirizine 79
   Section(iii): Assay of ranitidine 85
   Section(iv): Assay of salbutamol 92

Chapter-6: Summary 99
