List of Tables

1.1 World production and export of pepper
1.2 Indian production and export of pepper
5.1 Major pepper producing countries
5.2 Major pepper exporting countries
5.3 Proportion of export out of the total exporting
5.4 Export of spices from India
5.5 Export of pepper from India
5.6 Production of pepper export out of the total export of spices
5.7 Area and production of spices in India
5.8 Area, production and productivity of pepper in India
5.9 Overall production of pepper trade in India
5.10 Overall indices of India's pepper market
5.11 Trend analysis of pepper production in India
5.12 Trend analysis of pepper export in India
5.13 Trend analysis of pepper consumption in India
5.14 Domestic pepper prices at Kochi
5.15 Export of value added pepper products
5.16 Export of value added pepper products
6.1 Population and literacy rate of Kanyakumari District
6.2 Occupational pattern
6.3 Rainfall in Kanyakumari District

6.4 Area under different crops in the physiographic regions of Kanyakumari District

6.5 Irrigation in Kanyakumari District

6.6 Status of NWDPRA implemented in Kanyakumari District

6.7 Sector wise break up of annual credit plan in Kanyakumari District

6.8 Area details of State Horticulture Farm

6.9 Plants production and distribution

6.10 Indices of the performance of State Horticulture Farm

6.11 Mandate crops

6.12 Salient Findings

7.1 Ideal condition for black pepper cultivation

7.2 Standards for pepper

7.4 Pepper yield

7.5 Cost of plantation

7.6 Cost of maintenance

7.7 Cost of harvesting

7.8 Cost of marketing pepper

7.9 Overall expenditure of pepper cultivation and marketing

7.10 Cost structure of pepper cultivation

7.11 Break even analysis

7.12 Problems in pepper cultivation
7.13 Problems affecting the yield of pepper
7.14 Constraints of pepper cultivation
7.15 Problems of pepper cultivation and constraints of pepper yield
7.16 Age and income
7.17 Comparison between age and income
7.18 Qualification and income
7.19 Comparison between Qualification and income
7.20 Occupation and income
7.21 Comparison between occupation and income
7.22 Area and income
7.23 Comparison between area and income
7.24 Irrigation system and income
7.25 Comparison between irrigation system and income
7.26 Mode of sale and income
7.27 Comparison between mode of sales and income
7.28 Intercropping and income
7.29 Comparison between intercropping and income
7.30 Yield and income
7.31 Comparison between yield and income
7.32 Satisfaction and income
7.33 Comparison between satisfaction and income
7.34 Government support and income
7.35  Comparison between support and income
7.36  Experience and income
7.37  Comparison between experience and income
7.38  Satisfaction and income
7.39  Comparison between satisfaction and income
7.40  Summery of overall analysis

8.1  Problems of marketablity
8.2  Constraints of pepper marketing
8.3  Problems and constraints of pepper marketing
8.4  Pepper price index
8.5  Sales potentiality of pepper
8.6  Profitability index of pepper trade
8.7  Market potentiality of pepper trade in indices
8.8  Comparison among indices
8.9  Income and satisfaction
8.10 Age and satisfaction
8.11 Experience and satisfaction
8.12 Place of trade and satisfaction
8.13 Market extension and satisfaction
8.14 Pepper variety and satisfaction
8.15 Adulteration and satisfaction
8.16 Usage of By-product and satisfaction
8.17 Education and satisfaction
8.18 Occupation and satisfaction
8.19 Nature of business and satisfaction
8.20 Type of business and satisfaction
8.21 Overall results of associations
8.22 Problems of pepper marketing
8.23 Benefits of pepper trade
8.24 Opinion regarding pepper
8.25 Medical usage of pepper
8.26 Reason for the use of pepper
8.27 Comparison between income and consumption pattern of pepper
8.28 Comparison between age and consumption pattern of pepper
8.29 Comparison between the occupation and consumption pattern of pepper
8.30 Comparison between the education and consumption pattern of pepper
8.31 Comparison between the pepper quality and consumption pattern of pepper
8.32 Comparison between the medical use and consumption pattern of pepper
8.33 Comparison between the food habit and consumption pattern of pepper
8.34 Consolidation of results
