ACKNOWLEDGEMENTS

I am immensely grateful to my research supervisor Dr. Chinta Sudhakar, Professor, Department of Biotechnology, Sri Krishnadevaraya University, Anantapur-515001, India, for his supervision, illuminating guidance, valuable suggestions, immense help without which this project would not have been a reality. I also thank him who proved to be a constant source of immense inspiration.

I am deeply indebted to Prof. T. Pullaiah, Professor and Chairman, BOS of Botany for his valuable suggestions, for providing immense professional support and help to me.

My special thanks to Prof. R.R. Venkata Raju, Dr. B. Ravi Prasad Rao and Dr. S. Thimma Naik, Dept of Botany for their suggestions and encouragement given to me.

My thanks are also due to the authorities of Andhra Pradesh State Seed Development Corporation, Kurnool for providing me the certified seed material.

I wish to acknowledge special thanks to Research Scholars and coworkers Miss. Jyosthna Kumari, Miss. Prasanthi, Mr. Chandra Obul Reddy, Mr. Ranganayakulu and Smt. Veera Kumari for their cooperation and help to me.

I sincerely extend my thanks to the non-teaching staff of the Botany Dept.

I am thankful to my parents who provided me the opportunity to be educated and who always showered their choicest blessings on me.
Finally it will be a crime not to mention the sustained but silent inspiration provided by my husband Dr. B.Rama Chandra Reddy, M.D. Professor and Head of the Department of Medicine, Kurnool Medical College, Kurnool, for his unflinching support during this period and helping me through all the computer work.

My special appreciation to my son Dr. B.V.V. Reddy, B.D.S. and daughter B. Vishnu Vandana Reddy (M.B.B.S) who adjusted with me in household responsibilities during the entire period of this work.

G. PADMAVATHAMMA
