

ACKNOWLEDGEMENTS

With great obeisance I express my sincere gratitude towards Dr. HS Balyan, Professor and Head, Dept. of Genetics & Plant Breeding and my Supervisor for his constant guidance, encouragements and support during the course of this investigation and his painstaking efforts during writing of the thesis. With equal sense of gratitude I express my indebtedness to Dr. SR Bhat, Principal Scientist, NRC on Plant Biotechnology and my external supervisor for his untiring efforts, constructive criticism, valuable suggestions and unfathomable support during the course of investigation and thesis writing. My words are too feeble to give vent to my inner feelings towards both of them.

I consider myself blessed to have teachers like Prof. PK Gupta, Dr. S Das and Dr. Archana De. They have always given me continuous support, individual time and imparted their knowledge in me, which helped me to transform my dream of research into this piece of work.

I record my thankfulness to Drs. SK Mishra, B. Ramesh, PK Sharma, R Srinivasan, T Mohapatra, Jagmail Singh, Ambarish Sharma, KV Bhat, Mukesh Rana, RL Sapra, SK Lal, V Shanthi, VV Singh, SK Chopra, S Manikam, P Mohan and AK Talukdar for sparing their valuable time to answer my questions and helping me in interpretation of results and critically reviewing the manuscripts.

I convey my indebtedness to Dr. PA Kumar, Director, NRC on Plant Biotechnology, Dr. Sai Dass, Project-Director, Directorate of Maize Research and the authorities of CCS University, Meerut, for extending necessary facilities and help during this course of investigation.

I would also like to express a sincere gratitude to Reyaz, Amit, Pankaj, Vikrant, Kaushik and Babita for their patience and accessibility in sharing their experience in molecular work, breeding work and for clearing my innumerable doubts concerning the work. I would like to thank Mr. K. Sanath Kumar for helping me in type setting the manuscript.

My appreciation is extended to all the faculty members and staffs of the NRC on Plant Biotechnology, Directorate of Maize Research and CCS University, Meerut, who helped me in various ways and stood by my side in difficult times.

"Gratitude cannot be seen or expressed; it can only be felt deep down in the heart and is beyond description. Although words are poor expressions of the debt of gratitude, one feels, these are all one has."- I express my deepest sense of gratitude to Seemamadam, Drs. Pravir Mookherjee, NK Dadlani, Malavika Dadlani, Kamolabaudi, Maharajji and Aashish who were always there for me in good and bad times and always had a word of encouragement in the hard moments of this journey.

Unconditional love, patience, support, sacrifices and whole hearted cooperation of my son, Suhit, have given me the strength to keep moving and to pursue my dreams – thank you, my son. I am grateful to my parents, brother, sister, husband, in-laws and rest of the family members for their love, care and support.

I express my thankfulness to Department of Biotechnology for the financial support in form of Research Associate during the course of investigation.

I thank God for all His grace and blessings, without which it would not be possible for me to take a single step in my life.
