ACKNOWLEDGEMENT

I extend all glory, honour and thanks to the most gracious, loving and merciful JESUS MARY JOSEPH. I have found that the most amazing among their creations were the aquatic organisms and had relished the opportunity working in one.

I express my profound gratitude to my research guide, Dr. Boniface Victor, Reader and Dean of Sciences, for his invaluable guidance, moral support, apt advice, constant encouragement and unfailing help.

I take this opportunity to thank Rev. Dr. A. Antony Pappuraj, S.J, Rector, Rev. Dr. A. Antonsamy, S.J, Principal, Rev. Dr. Leo Tagore, Secretary, Rev. Dr. M. Charles, S.J, Former Secretary, St. Xavier’s College, Palayamkottai and Rev. Dr. Lourdusamy, S.J, Former Principal, for providing me an opportunity to do research in this esteemed college.

I express my heartfelt thanks to Mr. M. Thomas Punitan, Head of the Department, Dr. M. Narayanan, Dr. T. A. Sethuramalingam, Dr. M.A. Haniffa, and all the teaching and non teaching staff of the department of advanced zoology and biotechnology.

I specially thank Rev. Dr. V. S. Manickam, S.J, for permitting me to use internet in his research lab and who never said no to any help I asked for.

Mere words and pages are not enough to express my gratitude to my classmate and my co-researcher, Mary Baptista Janet, who stood with me from the time of conception to the last minute of execution of this scientific research. She is the one who inspired me to do doctorate.
I am thankful to my classmate and my colleague Dr. K. Sahayaraj, who encouraged me in many ways at times of difficulty.

I extend my heartfelt thanks to Dr. K. Natarajan, Prof. Bernard Chandra, Prof. S. A. Thiagarajan, Prof. Beschi and all the staff members of plant biology and biotechnology department for their positive words at times of difficulty.

I am greatly indebted to acknowledge all the scientists who helped me by sending original reprints, research publications and for their valuable guidance: Dr. Carl Smith, Queen Mary, University of London, Dr. Steven E. Campana, Chief Scientist - Otolith Research Laboratory, Canada, Dr. Richard S. McBride, Florida Fish and Wildlife Conservation Commission, Florida, Dr. S. Indunil P. Thilagaratne, Veterinary Research Institute, Sri Lanka, Dr. Alexandre Arenzon, Ecology Center, Federal University of Rio Grande do Sul, Brazil, Dr. Jean Huber, Author Killidata, USA, Dr. P. Abaunza, Institute of Oceanography, Spain, Dr. Wilson J. E. M. Costa and Dr. Agnes Christine Sundersen, Møre Research, Norway.

I profusely thank my friend Dr. A. Antone Raj, for his prayers and moral support provided during the period of my study.

It is my pleasant duty to express my deep sense of gratitude and appreciation to my fellow scholars Ramesh, Mannar Mannam, S. Renganayagi, Ravichandran, Ezhil, Maridass, Marinuthu, Raju, Bala, Rilbert Janarthanan, Nagarjan, Benniamin, ankar and Subha for their cooperation.
A special word of thanks to my beloved children Monica, Shelani, Sanjeev, Manish, Sweta & Rishi for their love and prayers.

My thanks are due to Dr. T. Francis, Dr. S. Venkatramani, Dean, and Dr. S.M. Felix, Fisheries College, Tuticorin and Mr. Geethan Rayan, USA for their help.

With heartfelt gratitude I acknowledge my brother Mr. A. Francis Beno Arachi, for helping in various ways from the dissection box to the printer.

I owe my utmost gratitude to my parents Dr. J.X. Arachi and Mrs. Euphrosia Arachi, to my wife and to all my family members for their prayers and timely help. I specially thank my parents for their forbearance, moral support, unfailing guidance, vicarious help, encouraging love and solidarity in all my endeavors during the period of my study.

(J. MICHAEL ANTONY PRABHU ARACHI)
