CONTENTS

PART - A

GENERAL INTRODUCTION AND EXPERIMENTAL

CHAPTER - I : BASIC PRINCIPLES OF POLAROGRAPHY 1

CHAPTER - II : EXPERIMENTAL

Section 1 :
Brief description of the instruments employed 13

Section 2 :
Purification of the chemicals used and preparation of solutions employed 17

Section 3 :
General polarographic and cyclic voltammetric procedures 18

PART - B

SYNTHESIS, CHARACTERIZATION AND ELECTRO-CHEMICAL STUDIES

CHAPTER - III :

Section 1 :
Synthesis and characterization of N-(Benzene Sulfonyl)-3-methyl-4-(2-substituted aryl hydrazono) - Pyrazolin - 5 - ones 20

Section 2 :
The importance of N-(Benzene Sulfonyl)-3-methyl-4-(2-substituted aryl hydrazono) - Pyrazolin - 5 - ones 28
Section 3:

Polarographic behaviour of N-(Benzene Sulfonyl)-3-methyl-4-(2-substituted aryl hydrazono) - Pyrazolin - 5 - ones 31

Section 4:

Effect of temperature on the polarographic reduction of N-(Benzene Sulfonyl)-3-methyl-4-(2-substituted aryl hydrazono)-Pyrazolin - 5 - ones 39

Section 5:

Polarographic behaviour of N- (Benzene Sulfonyl)- 3-methyl-4-(2-Nitro benzene hydrazono)- Pyrazolin - 5 - ones 73

CHAPTER - IV:

Cyclic voltammetric studies on 3-methyl-4-(2l-substituted aryl hydrazono) - Pyrazolin - 5 - ones 84

CONCLUSIONS 99
