ACKNOWLEDGEMENTS

I cannot resist expressing that Prof. A. Rama-krishna Rao's valuable guidance has registered an everlasting and green impression on the tablet of my memory. In the preparation of this dissertation I received generous help from him, who spared his valuable time to discuss many points pertaining to this work and in illuminating my mind in several aspects in the assignment. He was also gracious enough in animating me with hope and zeal whenever I felt downhearted.

I owe a deep debt of gratitude and generosity to Dr. V.V.N.Rajendra Prasad in arranging the dissertation in order and in helping me write the footnotes and the Bibliography in a proper order.

It will be an act of ingratitude if I don't acknowledge the help rendered by my uncle Sri.D.Kasi-visweswara Rao and my aunt Smt. Vasanta in securing the reference books and equip myself thoroughly for the written (entrance) examination. Special thanks and a deep sense of gratitude are due to Sri.M.Ramanatha Rao, Audit Officer, who is my friend, philosopher and guide, but for whose inspiration, affection and regular
inquiries about my project, this dissertation would not have seen the light of the day.

It would be a thorn on my flesh if I forget to acknowledge with thanks the help rendered by my cousin Smt. Jayasri, Dharmavaram and my dear brother Sri. H. Narasimha Phani, Anantapur in getting the rough copy typed facilitating the preparation of a fresh draft.
