

# Acknowledgement

It is a pleasant task to put on record my thanks to all those who contributed in many ways for the successful completion of this thesis.

I wish to express my sincere gratitude to my research supervisor **Dr. M. K. Kokila** for her valuable guidance, kind cooperation and constant encouragement throughout the course of this work.

I would like to express my warm and heartfelt thanks to **Drs. B. M. Nagabhushana, H. Nagabhushana** and **R. P. Sreekanth Chakradhar**, for they provided me with the necessary means to carry out my research work. I have benefited immensely from their positive influence. Their friendship and assistance has meant more to me than I could ever express.

I take this opportunity to sincerely acknowledge the Management, Chairman, Directors, Chief Executive, Principal, Vice-Principal and Registrar of **M. S. Ramaiah Institute of Technology** for supporting me in many ways to carry out this research work.

I owe my sincere gratitude to Prof. J.L. Rao, S.V. University, Tirupathi, for experimental and intellectual help, Drs. C. Shivakumara and K.P. Ramesh, IISc, Bangalore, for their advice and encouragement. Their kind support and guidance have been of great value in this study.

I wish to express my special appreciation and thanks to Mr. R. Harikrishna for his help in preparation of samples and valuable feedback on the thesis.

I have great pleasure in thanking Dr. M. Suguna, HOD, Department of Physics, MSRIT, for the fruitful academic discussions and constructive criticism about my work. My sincere thanks are due to my colleagues Drs. G. N. Anil Kumar, Seema Agarwal, Ravindra M. Melavanki, K. L. Sandhya and B. Siddalingeshwar, for providing conducive and friendly atmosphere in the department. Nagesh B.V. deserves special mention for his extensive discussions,

critical reading and useful comments about my thesis. Credit also goes to H.P. Nagaraj and H. Munikrishna for their timely help.

I am very thankful to Drs. R.V. Anavekar, B.A. Kagali and Ramani, Department of Physics, Bangalore University, for their help in the administrative work. I also extend my thanks to all the Faculty members, Research Scholars and non-teaching staff of Physics Department, Bangalore University.

I would like to thank Prof. D.N. Rao, Drs. Chikkahanumantharayappa, Kottam Nagaraju, K. Chandra Kumar and Messrs. Gurulinga, Jarali for their help at different stages.

Special thanks to my research colleagues Messrs. H. B. Prem Kumar, B. Umesh, M. Chandrashekar, C. Manjunatha, K. V. Brungesh, M. Shivaram, N. B. Gopal Reddy, N. Dhananjaya, M. Madesh kumar, A. Jagirdar, D. Prakash babu and Dr. Prashanth for providing a comfortable and friendly environment during this study.

I wish to place on record my sincere thanks to our former colleagues Prof. S. Chandranna, Drs. Bimla Kochhar, M.R. Srinivasan, K. Venkatesh and Seetha Bharati for their support and encouragement. I wish to thank my well wishers Dr. S.Ramanna, Prof. Ramesh Babu, Prof.Aravindkumar, Dinesh and Gourish for their continuous support.

Finally, I express my heartfelt appreciation with gratitude to my family, especially my wife and children for their excellent cooperation. I am very much indebted to them for their moral support.

For any errors or inadequacies that may remain in this thesis, of course, the responsibility is entirely my own.
