ACKNOWLEDGEMENTS

I owe my sincere thanks and gratitude to my research supervisor Dr. B. P. HARINI, Assistant Professor, Dept. of Zoology, Bangalore University, JB campus, Bangalore for assigning research problem, support, guidance and encouragement throughout the tenure of this study.

I wish to express my sincere thanks to Prof. Jayaprakash, Coordinator and Former Directors & Coordinators Centre for Applied Genetics, Bangalore University, JB campus, Bangalore and Staff for their encouragement.

I earnestly thank all my Teachers at Centre for Applied Genetics, Bangalore University, JB campus, Bangalore.

I thank National Stock Centre for Drosophila, DOS in Zoology Mysore University, Mysore for providing different species of Drosophila.

I am thankful to Prof. N. J. Shetty and his students, Centre for Applied Genetics, Bangalore University, JB campus, Bangalore.

I thank my research colleagues Pranesh. D. S. S, Pranesh. M. K, Ramesh Babu. Y and B. K. Neethu for their help during the course of this investigation.

I am thankful to Non-teaching staff, Centre for Applied Genetics, Bangalore University, Bangalore for their help.

My sincere thanks to family members and friends.

Finally, I acknowledge one and all, who have helped me to carry out the research without which this accomplishment would not have been a success.

D. S. GAYATHRI
