ACKNOWLEDGEMENTS
I express with great pleasure my deep sense of gratitude to Dr. P. P. Wamanan, Professor, Department of Agricultural Botany, Gauhati University, Gauhati, Assam, India for his valuable guidance, encouragement and constructive criticisms throughout the period of the investigation and preparation of the thesis. I also feel highly indebted to him for his valuable suggestions which I received during the course of the present investigation and in the preparation of this manuscript.

I am grateful to Director, Central Plantation Crops Research Institute (ICAR), Kasaragod, Kerala, for providing necessary field and laboratory facilities at the Research Centre, Kahikuchi, Gauhati, Assam India. I am also grateful to Dr. G. Konger, Professor and Head of the Department of Agricultural Botany, Gauhati University for providing all necessary facilities and sincere help.

My sincere thanks are due to Shri Jacob Mathew, Senior Scientist (Statistics), Central Plantation Crops Research Institute, Kasaragod, India and Dr. B. C. Sasmal, Senior Scientist (Statistics), Jute Agricultural Research Institute (JARI), Barrackpore, India for their suggestions and help in the statistical analysis of the data. I also thank Shri Ashoke Kumar Roy and Shri Animesh Chaudhuri, JARI, for various help rendered during the course of the present study.

I am very much thankful to Mrs. Gita Das of JARI, for initial draft
typing and Shri K.Lakshmanan of Calcutta, India, for final typing of the manuscript. My sincere thanks are also due to Dr.R.K.Singh, Agricultural Economist and Shri A.K.Ray, Plant Pathologist and the staff members of Central Plantation Crops Research Institute (ICAR), Research Centres, Mohinagar and Kahikuchi, India, and all other friends for their generous help during the course of my studies and preparation of thesis.

My special thanks are due to my wife, Smt Chhanda Roy who was a source of inspiration throughout the period of my studies.

Gauhati University, Assam, The 31st December, 1985

(Asish Ranjan Roy)
