ACKNOWLEDGEMENT

I avail this golden opportunity to acknowledge my heartful gratitude and sincerest thanks to Dr. Binod Chandra Tripathy, without whose guidance it would have been impossible for me to prepare this thesis.

I thank all the teachers of the Department of Mathematics, Gauhati University, particularly Professor K. C. Choudhury, Professor N. R. Das, Professor T. K. Dutta and Professor B. C. Kalita for their constant encouragement and advice for completing the work.

I thank the Vice-Chancellor, the Registrar, and the staffs of Gauhati University for their help.

I thank the successive Directors, the Registrar of IASST as they permitted me to work as a part time research fellow. I thank the members of the Mathematical Sciences Division of IASST for their constant cooperation.

My parents Sri Tikendra Nath Hazarika and Smt Biju Hazarika well deserve my special thanks as they enkindled the enthusiasm engrained in me.

My wife Mitu well deserves my special thanks as her encouragement and constant help for complete the work.

I thank my close friends Amar, Pranjal, Amrendra and Utpal as they always enhanced my enthusiasm to stick to the work.

I thank my sisters and sister in laws for their encouragement and help for completing my works successfully.

(Mr. TTipan Hazarika)
