ACKNOWLEDGEMENT

The author is privileged to express his sincere gratitude to the Hon’ble guides Dr. M M Das, Prof. Emeritus (AICTE) and former Director of Technical Education, Assam and Dr. U C Kalita, Prof., CE – GTE, AWTI, Arbaminch, Ethiopia and former HOD (Civil), IIT, Guwahati, for their invaluable guidance throughout the study. Without their kind and insightful lead, this work would not have been possible.

The author thanks the Government of Assam in the Irrigation Department for its kind permission to the author to pursue this study as a working engineer. The author also thanks Dr. B D Saikia, Prof. and HOD (Civil), AEC, Guwahati and Prof. Z U Ahmed, former HOD (Civil), AEC, Guwahati for their kind encouragement and for providing the college laboratory facilities.

The author is highly indebted to Dr. A K Sarma, Asstt. Prof.(Civil), IIT, Guwahati, Dr. J Pathak, Asstt. Prof. (Civil), JEC, Jorhat, Dr. B C Talukdar, Asstt. Prof.(Civil), AEC, Guwahati and Sri R K Goswami, Research Scholar, IIT, Guwahati for their kind help throughout the study. Sri S Das and Sri B Nath of the Hydraulics Laboratory, AEC, Guwahati deserve special thanks for their keen help and co-operation during the laboratory works.

The author also specially thanks his wife, Tulika, for her help in print-designing the thesis.

Finally, the author expresses his sincere gratitude to all his teachers, friends and family members for their constant encouragement.

Preetam Kumar Pathak
