ACKNOWLEDGEMENTS

I wish to record my deep gratitude to
Dr. P.K.K. Nair, Assistant Director, and Head, Morphology and Palynology Division, National Botanic Gardens, Lucknow and to Professor (Mrs.) P. Baruah, Gauhati University, Gauhati, Assam for providing me the benefit of their joint guidance and learned advice during the course of this work. I am highly indebted to Dr. T.N. Khoshoo, F.N.A., Director, National Botanic Gardens, Lucknow, for according me all facilities to work at the Institute and for his encouragement. I am also thankful to the staff members of the Palynology Lab., National Botanic Gardens, Lucknow, and particularly to Mr. Ravi Kumar and Miss Darshan Sharma for helping me in various ways. I am thankful to Dr. M. Stiecklick, Botanical Institute, Academy of Sciences, Krakow, Poland, and to the Director, Birbal Sahni Institute of Palaeobotany, Lucknow for presenting me some pollen slides, and to the Dy. Director, Botanical Survey of India, Dehra Dun, for sparing me the pollen material from their Herbarium. I express my gratitude to Kr. Kanti Vir Gupta, Manager and Smt. Sahna Chatterjee, Principal of the
NariShiksha Niketan, Lucknow, for giving me permission and encouragement to carry on this research work. I wish to thank my husband Dr. R.K. Katiyar for the cooperation, encouragement and help he has given, and also to my beloved kiddies who have although unwillingly but patiently been sparing me to carry on this investigation. Thanks are also due to Mr. Baby Yohannan for typing, and to various others for their good feelings and kind encouragement.

(Mrs.) KAMLESH KATIYAR
