ACKNOWLEDGEMENT

The author is very grateful to Vice Chancellor and Research Coordinator, Manonmaniam Sundaranar University, Tirunelveli, and Dean (Academic), National Institute of Technology, Trichirappalli, for permitting him to undertake this research.

The author shows his whole-heartedly thanks to his supervisor Dr. S.G. Ponnambalam, Professor, Department of Production Engineering, National Institute of Technology, Trichirappalli for his invaluable guidance, stimulating encouragement, unceasing enthusiasm, the sparkling discussions, and the thorough explanations he gave him for the successful completion of this research work.

In addition, the author is grateful to Dr. N. Jawahar, Professor, Department of Mechanical Engineering, Thiagarajar College of Engineering, Madurai for the prompt and thorough feedback, corrections, and valuable suggestions on the first draft of this thesis.

With the deep sense of gratitude the author sincerely thank the Management, Shri C. Subhasingh, Correspondent, Prof. S. Balakrishnan, Professor in Charge and Dr. P. Nagaraj, Professor and Head, Department of Mechanical Engineering of Mepco Schlenk Engineering College for permitting him to utilize the facilities available in Mepco Schlenk Engineering College, Sivakasi.

The author extends his sincere gratitude to Dr. G. Chandrasekaran, Professor and Head, Department of Master of Computer Applications, Prof. S. Arivazhagan, Associate Professor, Department of Electronics & Communication Engineering, Dr. A. Marikani, Assistant Professor, Department of Physics of Mepco Schlenk Engineering College, Sivakasi for their moral support given to him through out this research work. The author extends his thanks to every staff members (both teaching and
non-teaching) of Mepco Schlenk Engineering College, Sivakasi for their innumerable helps.

Thanks are due to Dr. C. Rajendran of Indian Institute of Technology, Madras, Dr. V. Selladurai of Coimbatore Institute of Technology, Coimbatore, Dr. P.V. Mohanram of PSG College of Technology, Coimbatore and Dr. C. Aravindan of SSN College of Engineering, Chennai for their valuable suggestions and timely help for this research work.

For the remote support I thank to my family and to my friends without whom the completion of this thesis would have been much harder.

Above all the author ascribes all praises to the ALMIGHTY whose blessings have come throughout his life.
