Chapter 1

Introduction & Objectives
Chapter 2

Review of Literature
Chapter 3

Materials & Methods
Chapter 4

1. Study on the modulation of Th1 type of immune response during Mycobacterium tuberculosis infection using SMAR1 transgenic mice as model.

2. Study on the regulation of Interferon-γ gene by SMAR1
Chapter 5

1. Macrophage response to M. tuberculosis infection and potential role of SMAR1

2. To study the role of M. tuberculosis secretory antigen ESAT-6 in modulating the host immune response
