ACKNOWLEDGEMENT

The author wishes to extend his deep sense of gratitude and indebtedness to Prof. BALASUBRAMANIAN, Department of Studies in Geology, University of Mysore, Manasagangotri, Mysore-570006 (Formerly Senior Lecturer in Geology, P.G. Dept. of Geology, V.O.C. College, Tuticorin.) for the supervision and guidance rendered by him throughout the period of this study. He is also grateful to Prof. M.S. JEGATHEESAN, Professor of Geology, University of Madras and Dr. V.A. CHANDRAKUMAR, Reader in Geology, Bharathidasan University, Tiruchchirappalli for their guidance and discussions in the capacity of members of the Doctoral Committee.

The author gratefully acknowledges the University Grants Commission, New Delhi for awarding one Teacher Fellowship under the VIII Plan period.

The author wishes to thank the Commissioner of Collegiate Education, Madras and Principal, Alagappan Government Arts College, Karaikudi for permitting him to carry out the research work and for present deputation.

The author wishes to thank the management, especially the Hon. Secretary Mr. A.P.C.V. Chockalingam, the Principal Prof. S. Duraisamy, V.O.C. College, Tuticorin for permitting him to carry out research in their reputed institution.

The author is grateful to his colleagues Prof. V. RAMASAMY, Mr. M. Ayyakannu and Mr. SP Sathiyavagam for their encouragements and valuable suggestions rendered at every stage of research.

The author wishes to extend his gratitude to Dr. K. Kathirvelu (Professor and Head, retired) and E. Ramanujam, Professor and head, P.G. Department of Geology, V.O.C. College, Tuticorin for providing necessary facilities during the tenure of fellowship.

He wishes to thank Mr. V. Radhakrishnan and Mr. R. Thirugnana Sambandam for their logistic support.

The author wishes to extend his deep sense of gratitude to Prof. R.N. Satish, Chairman, Department of Studies in Geology, University of Mysore, Mysore for providing necessary facilities.

He wishes to thank Prof. J.C.V. Sastri and Prof. A.S. Janardhan and other faculty members of Department of Studies in Geology, University of Mysore, Mysore for their constructive criticism.
His thanks are also due to the Chief Engineer (Groundwater Division), Public Works Department, Government of Tamil Nadu, Madras, Officer-in-charge, C.G.W.B. Southern Region, Madras and Chief Hydrogeologist, TWAD Board, Madras for their kind permission to utilize the available data of the respective organisations. The valuable discussions and suggestions contributed by Mr. Ulaganathan, Mr. Subbaiah, Assistant Directors and Mr. Veerasamy, Mr. Manavalan, and Mr. Mathivanan, Assistant Geologists of P.W.D. (Groundwater), Karaikudi are gratefully acknowledged. The help rendered by Mr. Charles Joseph and Mr. Rajasekar of P.W.D. (GWD) cannot be forgotten.

His special thanks are due to Mr. S. Ganesan and Mr. V.C. Ramakrishnan, Deputy Hydrogeologists for helping the author in planning the field work and in interpreting the geophysical field data.

The author wishes to thank Mr. S. Sakthi Murugan, Mr. R.K. Elangovan, Mr. S.R. Sanil, Mr. Nagaraj and Mr. Anto Francis, Research scholars for their help during the field work and computer data processing.

The encouragement given by Mr. G. Ponram, Mr. M. Mathew, Mr. R. Chellasamy, Mr. G. Manimaran, Mr. C. Arunachalam, Dr. S. Subramanian and Dr. Siva Subramanian are thankfully acknowledged.

The author wishes to extend his special gratitude to Mr. P. Balasubramanian, Post Graduate Teacher, Kendriya Vidyalaya Karaikudi for his help and encouragement throughout this research. He wishes to thank Mr. Pandurangan for drafting the diagram neatly.

He wishes to place on record the blessings and the constant encouragements shown by his parents. He is also thankful to his wife and children who endured the neglect during the course of the work.

M/s MUKI SYSTEMS, Tuticorin, are acknowledged for their neat printing of the thesis.

J. FRANCIS LAWRENCE
