I am extremely grateful to my research guide Dr. B. Victor, Director, Environmental Carcinogenesis Research Unit, Research Department of Zoology, St. Xavier's College (Autonomous), Palayamkottai, India. He has been an inspiration and has effectively guided me by his valuable criticisms, suggestions and constant encouragement throughout the course of my study.

Many other persons have helped me in various ways which made this study successful and I record my sincere gratitude to everyone. The following persons need special mention:

* Dr. Mythili Paul, M.D., (Director, The Pathology Centre, Thoothukudi) for her effective guidance and valuable tips in the processing procedures for microtome work.

* Dr. B. Victor (my guide), Drs. Karl Marx and Francis (Fisheries College, Thoothukudi), Dr. David Manoharan (Tamil Nadu Agricultural University, Killikulam), and Dr. Mohanasundaram (Tamil Nadu Agricultural University, Coimbatore) for helping me in taking microphotographs.

* Drs. T. Sundararaj and Usha Gnanaselvi (Dr. ALM. P.G. Institute of Basic Medical Sciences, Chennai), Drs. Palaniappan and Gowri Shankar (P.G. Dept. of Microbiology, Sri. Paramakalyani College of Arts and Science, Alwarkurichi) for the analysis of hemolymph microflora.

* Dr. Durairaj Muthiah (Tamil Nadu Agricultural University, Madurai) for helping in the analysis of inorganic ions.

* Dr. G. Kulandaivelu (School of Biotechnology, Madurai Kamaraj University), for taking SEM photographs.
Dr. S. R. D. Jebakumar (School of Biotechnology, Madurai Kamaraj University), Drs. Palmy Rose Rajan and Arivalagan (Dept. of Zoology, Madras University, Chennai) for helping me in the elecrophoretic analysis of hemolymph proteins.

Drs. Godfred Ponraj, Xavier Ramesh, John Samuel & Benny (CAS in Marine Biology, Annamalai University, Parangipettai) for collecting and sending me certain relevant literature.

Dr. Prem Mathi Maran (Entomology Research Unit, St. Xavier’s College, Palayamkottai) for various miscellaneous assistance.

I am indebted to the Principals and Managements of St. John’s College, Palayamkottai and St. Xavier’s College, Palayamkottai for providing adequate laboratory facilities. A one year period under Faculty Improvement Programme of the University Grants Commission helped me to work intensively in the laboratory and to visit various institutions in and around the state of Tamil Nadu.

My special thanks are due to my husband & colleague, Dr. Albert Rajendran who has been a perennial source of encouragement and for his perseverance and constant counselling throughout the course of my study. I am also grateful to my sons Nithin and Naren for accompanying me to the field for collecting the study animals.

Special credit goes to Mr. CT. Kannan of ABHI DTP, Tirunelveli for the efficient and neat layout of the manuscript.

H. M. Mabilini
