<i>Prelude</i>	<i>vi-vii</i>

Section I: Introduction

Chapter 1:	Introduction	1-37
------------	--------------	------

Section II: Light Ion Activation

Chapter 2:	Activation with ^1H	38-55
	Interlude 1	56-57

Section III Heavy Ion Activation

Chapter 3:	Theoretical Simulation of Heavy Ion Induced Reactions	58-61
Chapter 4:	Experimental Simulation on Separation of Heavy Ion Induced Carrier-free Rare Earth Radionuclide	62-71
	Interlude 2	72
Chapter 5:	Experimental set-up for Heavy Ion Irradiation	73-77
Chapter 6:	Activation with ^{12}C	78-97
Chapter 7:	Activation with ^{16}O	98-121
Chapter 8:	Activation with ^{11}B	122-131

Section IV: Conclusion

Chapter 9	Summary and Conclusion	132-140
