Basubandhu Bhattacharyya and Bablu Karmakar have helped to complete some of the drawings of this thesis. Ranjit Majhi, Sanjit Majhi have carried out the basic typing of the thesis which has subsequently been laserset under the directions of Anindya Chakraborty, Aninda Misra, Pradipal Ganguli. Mrs. Gouri Mukherjee have gone through parts of the proofs.

Many persons have taken part in the field surveys. Among them I would like to mention Labanya Bhattacharyya, Purabi Bhattacharyya, Ravneet Mahal, Samir Ghosh, Parthasarathi Saha, Maman M. Sarkar and specially Durba Bhattacharyya and Sisir Bhattacharyya without whose assistance my field survey could hardly be completed.

I acknowledge with deep appreciation to Mr. Nagen Tarafdar, Mr. Bolai Paik, Mr. Naren Das, Mr. Binod Das, Mr. Gopal Sarma, Mr. Premananda Sikdar for their selfless help during my visit in their sand bars. It would be a long list if I have to acknowledge within this short campus all those villagers who became my friends during my field survey at various stages.

Lastly all the members of my family specially my mother had been a constant source of help and encouragement.

I would like to thank all these people for their generosity.

K. Bhattacharyya
