Acknowledgements

The undersigned wishes to express the sincere gratitude to Professor A K Mukherjee for extending me an opportunity to work under his able guidance and for his keen interest in teaching me the fundamentals of Biochemistry and Molecular Biology.

I wish to thank Professor A K Banerjee, Professor K Gupta, Professor B Nandi and Dr A Mukherjee for their encouragement throughout the course of my investigation.

Special indebtedness is extended to Professor M A Choudhuri who first initiated research in regard to Physiological Aspects of Abiotic Stress in Plants in the Department of Botany, Burdwan University.

I am grateful to Professor A N Bhaduri, former Director of Indian Institute of Chemical Biology, Calcutta and Professor C Dasgupta of Department of Molecular Biology, Genetics and Biophysics, Calcutta University for their valuable suggestions.

I am also thankful to Professor R C Sachar of Delhi University for providing me with some most expensive chemicals and advice during the course of my study.

I am indebted to my colleagues Dr B P Sadhu, Dr Ms K Saha, Dr A Ghosh and B De for their help. Thanks are due to Kasem Ali and C De for their assistance in laboratory work. Thanks are also due to R Batabyal for draft typing of the manuscript. Thanks are also to Dr G Siddhanta, Principal, Hooghly Mohsin College and Dr A Mitra, Head, Botany Department, Hooghly Mohsin College for their cooperation and suitable help. Acknowledgement is also extended to Burdwan University for granting me research fellowship during the entire course of investigation. I am also grateful to UGC for awarding DSA and COSIST to our Department for which I was able to use some sophisticated instruments.

I will be extremely ungrateful if I do not express my heartfelt gratitude to my wife and son who have spared days, weeks, months and even years for my thirst for knowledge when they definitely missed my company. Inspite of that, I was not denied of their steadfast encouragement as well as silent patience.
