ACKNOWLEDGEMENT

I would like to take this opportunity to express my deep sense of gratitude and respectful regards to my teacher Dr. B. K. Ghosh for associating me in his school. His constant encouragement and stimulating guidance kept me inspired throughout the course of this work. I am to express my heartfelt gratitude for his useful suggestions and persuing the entire manuscript.

I am very much indebted to Professor A. Chakravorty, Professor K. Nag and the members of their groups in Indian Association for the Cultivation of Science, Calcutta and Professor J. Ribas, Universitat de Barcelona, Barcelona, Spain who helped us with spectroscopic and electrochemical work. I record my indebtedness to all the faculty members, staffs and research scholars of this university for their kind cooperation in academic, official and laboratory work related to my thesis. Valuable help rendered by Prof. A. K. Das, Prof. S. Basu, Prof. M. Banerjee, Dr. C. Sinha, Dr. S. K. Chandra, Dr. B. K. Roy, Dr. P. K. Das, Dr. S. Sinha, Dr. T. K. Mishra and Messers R. Sinha, P. Santra, T. Das, M. Sil, S. Deoghoria, S. Banerjee, S. Bera, S. Sain, D. Bose, J. Banerjee and K. Roy deserves special mention. I am also appreciative of and thankful to all my family members for their constant support and inspiration in continuing and completing this work. Financial assistance received from the University of Burdwan, Burdwan is gratefully acknowledged.
