List of Tables and Illustrative Materials
CHAPTER ONE – INTRODUCTION
1.0 Objective
1.1 Relevance of the theme
1.2 Study area
1.3 Time span and rationale of periodization
1.4 Target sectors
1.5 Methodological issues
1.6 Data base
1.7 Chapter organisation
1.8 Conclusion
CHAPTER TWO STUDY AREA
2.0 Introduction
2.1 Delineating the coast
2.2 Climatic indicators
2.3 The eastern coast of India
2.4 Delineating the West Bengal coast
2.5 The West Bengal coast
CHAPTER THREE LITERATURE REVIEW AND CONCEPTUAL BACKGROUND
3.0 Literature Review: Introduction
3.1 Literature review on the characteristics of cyclones in the Bay of Bengal
3.2 Literature related to cyclones as hazardous phenomena
3.3 Fishing as affected by cyclones
3.4 Tourism as affected by cyclones
3.5 Concepts
3.6 Conclusion
CHAPTER FOUR DEFINITIONAL PROBLEM
4.0 Introduction
4.1 Scientific terminologies
4.2 Perceptive reality
   Conclusion.
CHAPTER FIVE CYCLONES AS NATURAL PHENOMENA
5.0 Introduction
5.1 Objective
5.2 Sources and types of data
5.3 Seasonality of cyclones
5.4 Points of origin
5.5 Points attaining the stage of cyclonic and severe cyclonic storm
5.6 Points of hitting
5.7 Cyclones in West Bengal coast
5.8 Other conditional factors important socially
APPENDIX I-A Details of cyclone data (1891-1990)
APPENDIX I-B List of cyclones (1877-1890)
APPENDIX I-C Blanford's list of cyclones (1737-1876)
APPENDIX II-A Questionnaire schedule for perception survey of the fishermen
APPENDIX II-B Loss sustained by the fishermen in sea-fishing
APPENDIX III-A Questionnaire schedule for perception survey of non-tourists
APPENDIX III-B Questionnaire schedule for perception survey of tourists

LIST OF FIGURES

Study Area The east coast of India
2.1.(i) , 2.1.(ii) , 2.1.(iii) , 2.1.(iv) After 23
Study Area West Bengal coast
2.2—Medinipur After 25
2.3—South 24 Parganas After 25
Places of origin of cyclones
5.1—Pre-monsoon season After 102
5.2—Monsoon season After 103
5.3—Post-monsoon season After 104
Points attaining cyclonic and severe cyclonic stages
5.4, 5.5—Pre-monsoon season After 105
5.6, 5.7—Post-monsoon season After 106
5.8, 5.9—Monsoon season After 107
Points of hitting
5.10—Pre-monsoon season After 109
5.11—Monsoon season After 109
5.12—Post-monsoon season After 109
5.13—Selected tracks of West Bengal cyclones, non-monsoon season After 113
5.14—Selected tracks of West Bengal cyclones, monsoon season
5.15—Isobaric pattern in 1942 cyclone
6.1—Primary, secondary and long-term impacts on physical and social environment
6.2—Transfer and transformation of primary impacts on society
6.3—Impacts of cyclones varied on onset time and duration
7.1—Different modes of sea-fishing and possible risk involvement
7.2—Impacts of cyclones on fishermen, engaged in sea-fishing
7.3—Sea-fishing as an ecosystem
8.1—Digha police station
8.2—Digha tourist centre
8.3—Variation in tourist-flow and cyclonic days in Digha
8.4—Impacts of cyclones on tourists and non-tourist people

LIST OF PLATES
Meergoda, extensive dunal sand, approx. 12kms. Inland
Mangrove vegetation
Storm surges in Digha
Beach erosion in Digha and Sitarampur
Sea-fishing from netting to marketing
Cyclones and tourism
