

Acknowledgement

The thesis titled “Studies on synergism in metal extraction” embodies the research work carried out by me in the laboratory of Department of Chemistry, The University of Burdwan, West Bengal, India.

At the very beginning, let me express my great sense of gratitude to those whose constant help and encouragement had made it possible for me to complete my dissertation work.

At first, I take this opportunity to express my deep sense of gratitude and indebtedness to my respected supervisor Professor Sukalyan Basu, Department of Chemistry, The University of Burdwan, West Bengal, India who favoured me with the scope of being one of his many research scholars. From that day my research took a momentum under his constant guidance and deep affection.

I am also greatly thankful to Professor D. Mukherjee, Department of Chemistry, The University of Burdwan, West Bengal, India for his tremendous support and valuable advices many a times when I needed it during my research work.

I specially express my sincere regards to Professor G. S. De, Professor S. Thakur, Professor A. K. Das, Professor P. Ghosal, Professor A. K. Mukherjee, Professor Manas Banerjee, Dr. S. Laskar, Dr. B. Ghosh, Dr. S. Chandra, Dr. C. R. Sinha, Dr. D. Pal and Mr. B. Mondal of Department of Chemistry, The University of Burdwan, Burdwan, West Bengal, India, for their kind help in getting through many hurdles that I faced during my research work.

I want to acknowledge the tremendous help and cooperation which I received from Dr. S. B. Monohar, Head, Radiochemistry Division, Bhabha Atomic Research Centre, Trombay, Mumbai, India, Dr. V. K. Manchanda, Head, Actinide Section, Radiochemistry Division, Bhabha Atomic Research Centre, Trombay, Mumbai, India and Dr. P. K. Mohapatra, Scientific Officer E, Radiochemistry Division, Bhabha Atomic Research Centre, Trombay, Mumbai, India, during my research work.

I convey me deep thanks to fellow scholars Miss Kamalika Roy, Miss Soma Deoghoria, Miss Sutapa Majumdar, Miss Mallika Bhar, Miss Sushama Sain, Miss Doyel Bose, Mr. Sujit Bera, Mr. Avijit Saha, Mr. Samir Maji, Mr. Bhim Chandra Mondal, Dr. Kakali Datta and Mr. Arunasish Bhattacharya for their help during my research work.

I thankfully acknowledge University Grant Commission for providing me financial support during my research work.

Mention must be made of my one and only brother whose constant encouragement and love has provided me tremendous support during my entire academic life.

I would also thank the contribution of my brothers Prithiraj Saha, Debraj Saha and Abhisek Das, my brother-in-law Subrata Bhattacharya, my grand mother and my respected teacher Mr. Gopal Chandra Koley without their help I would not be able to overcome some serious problems during my research period.

I would like to mention the help, co-operation and support which I had received from my in-law family, specially my father-in-law and my mother-in-law.

The help which I received from my husband Mr. Sumanta Bhattacharya, Research Scholar, Department of Chemistry, The University of Burdwan, India, is boundless and cannot be expressed in just few lines. Without his constant help, mental support, co-operation, dedication and devotion it would not have been possible for me to complete my research work.

Finally, I express with deep respect for the selfless support, endless sacrifice, constant encouragement, inspiration, motivation and love which I received from my father and mother. They had always been the guiding stars and ideals in my academic life. Without them I could not even start, leaving alone complete my research work.
