

LIST OF FIGURES

1. Map of south India

A: Line drawings

- A1. *Amaranthus blitum* L. var. *oleraceus* L.
- A2. *Amaranthus caturus* Heyne
- A3. *Amaranthus caudatus* L. var. *aleopecurus* Sauer
- A4. *Amaranthus caudatus* L. var. *caudatus*
- A5. *Amaranthus cruentus* L.
- A6. *Amaranthus dubius* Mart.
- A7. *Amaranthus edulis* Downton
- A8. *Amaranthus graecizans* L. ssp. *thellungianus* (Nevski) Gusev
- A9. *Amaranthus hybridus* L. var. *hybridus* Towns.
- A10. *Amaranthus mangostanus* L.
- A11. *Amaranthus polygamous* L.
- A12. *Amaranthus retroflexus* L.
- A13. *Amaranthus spinosus* L.
- A14. *Amaranthus tricolor* L. var. *tricolor*
- A15. *Amaranthus tricolor* L. var. *tristis* Prain.
- A16. *Amaranthus viridis* L.
- A17. *Achyranthes bidentata* Blume.
- A18. *Aerva lanata* (L.) Juss.
- A19. *Allmania nodiflora* (L.) R. Br.
- A20. *Cyathula prostrata* (L.) Blume,
- A21. *Digera muricata* (L.) Mart.
- A22. *Nothosaerva brachiata* (L.) Wt.
- A23. *Psilostachys sericea* (Koen. ex Roxb) Hook. f.
- A24. *Psilotrichum elliotii* Baker and Clarke.
- A25. *Pupalia lappacea* (L.) Juss.
- A26. *Trichurus monsoniae* (L.f.) Towns.

B: Photographs

- B1. *Amaranthus blitum* var. *oleraceus*-whole plant
- B2. *Amaranthus blitum* var. *oleraceus*-inflorescence
- B3. *Amaranthus caturus*- whole plant
- B4. *Amaranthus caturus*- inflorescence
- B5. *Amaranthus caudatus* var. *aleopecurus*-population
- B6. *Amaranthus caudatus* var. *aleopecurus*-inflorescence
- B7. *Amaranthus caudatus* var. *caudatus*-population
- B8. *Amaranthus caudatus* var. *caudatus*-inflorescence
- B9. Two varieties of *A. caudatus* var. *aleopecurus* and *A caudatus* var. *caudatus*
- B10. *Amaranthus dubius*-inflorescence
- B11. *Amaranthus edulis*-whole plant
- B12. *Amaranthus graecizans* ssp. *thellungianus*-inflorescence
- B13. *Amaranthus cruentus*-inflorescence
- B14. *Amaranthus hybridus* var. *hybridus*-inflorescence
- B15. *Amaranthus mangostanus*-population
- B16. *Amaranthus polygamous*-inflorescence
- B17. *Amaranthus retroflexus*-inflorescence
- B18. *Amaranthus spinosus*-whole plant
- B19. *Amaranthus tricolor* var. *tricolor* (left) *Amaranthus polygamous* (right)
- B20. *Amaranthus tricolor* var. *tristis*-different populations
- B 21. *Amaranthus viridis*-inflorescence
- B22. *Achyranthes bidentata*
- B23. *Cyathula prostrata*-young plant
- B24. *Cyathula prostrata*-inflorescence
- B25. *Psilostachys sericea*-young plant
- B.26.*Psilostachys sericea*-3-branched cyme

C. Leaf architecture

- C1. Brochidodromous type showing incomplete areolation (*Digera muricata*)
- C2. Brochidodromous-weak pattern (*Amaranthus graecizans*)
- C3. Uniform vein endings and intra-marginal region (*Amaranthus graecizans*)
- C4. Fimbral venation (*Amaranthus viridis*)
- C5. Sphaerocrystals and bundle sheath (*Amaranthus viridis*)

D: Palynology (SEM)

- D1. *Amaranthus caudatus* var. *caudatus*-Pollen grain
- D2. *Amaranthus cruentus*-Pollen grain
- D3. *Amaranthus graecizans* ssp. *thellungianus*-Pollen grain
- D4. *Amaranthus hybridus* var. *hybridus*-Pollen grain
- D5. *Amaranthus polygamous*-Pollen grain

- D6. *Amaranthus spinosus*-Pollen grain
- D7. *Amaranthus viridis* -Pollen grain
- D8. *Aerva lanata*-Pollen grain
- D9. *Allmania nodiflora* -Pollen grain
- D10. *Cyathula prostrata*-Pollen grain
- D11. *Digera muricata*-Pollen grain
- D12. *Nothosaerva brachiata*-Pollen grain
- D13. *Psilostachys sericea*-Pollen grain
- D14. *Psilotrichum elliotii*-Pollen grain
- D15. *Pupalia lappacea*-Pollen grain
- D16. *Trichurus monsoniae*-Pollen grain

E. Seed morphology (LM)

- E1. *Amaranthus caudatus* var. *aleopecurus*-seed
- E2. *Amaranthus caudatus* var. *caudatus*-seed
- E3. *Amaranthus dubius*-seed
- E4. *Amaranthus mangostanus*-seed
- E5. *Amaranthus retroflexus*-seed
- E6. *Amaranthus spinosus*-seed
- E7. *Amaranthus tricolor* var. *tricolor*-seed
- E8. *Amaranthus viridis*-seed
- E9. *Achyranthes bidentata*-seed
- E10. *Aerva lanata*-seed
- E11. *Allmania nodiflora*-seed
- E12. *Digera muricata* -seed
- E13. *Pupalia lappacea*-seed

F: Trichome complex

- F1. Unicellular microform conical hair
- F2. Unicellular macroform conical hair
- F3. Unicellular cylindrical flagellate hair
- F4. Unicellular cylindrical hair

- F5. Unicellular fusiform hair
- F6. Unicellular clavate hair
- F7. Unicellular sagittae hair
- F8. Unicellular spinulose hair
- F9. Unicellular bulbiferous hair
- F10. Unicellular apiculate hair
- F11. Unicellular obpyriform hair
- F12. Unicellular trullate hair
- F13. Unicellular bifurcate hair
- F14. Unicellular moniliform hair
- F15. Unicellular lanceolate hair
- F16. Unicellular anchor hair
- F17. Unicellular spinulose conical hair
- F18. Unicellular ramose hair
- F19. Unicellular dendritic hair
- F20. Unicellular stellate hair
- F21. Unicellular capitate hair
- F22. Uniseriate conical hair
- F23. Uniseriate septate conical hair
- F24. Uniseriate multiarmed conical hair
- F25. Uniseriate bulbiferous conical hair
- F26. Uniseriate osteolate conical hair
- F27. Uniseriate spinulose conical hair
- F28. Uniseriate dendritic hair
- F29. Uniseriate uncinata hair
- F30. Biseriate uncinata hair
- F31. Multiseriate conical hair
- F32. Multi-cellular conical hair
- F33. Uniseriate cylindrical hair
- F34. Uniseriate branched cylindrical hair
- F35. Uniseriate bulbiferous cylindrical hair
- F36. Uniseriate spinulose cylindrical hair
- F37. Multi-seriate cylindrical hair

- F38. Uniseriate hooked hair
- F39. Biseriate hooked hair
- F40. Uniseriate osteolate barbed hair
- F41. Uniseriate osteolate hair
- F42. Uniseriate osteolate branched hair
- F43. Uniseriate osteolate spinulose hair
- F44. Uniseriate osteolate capitate hair
- F45. Uniseriate osteolate dendritic hair
- F46. Bi-cellular osteolate falcate hair
- F47. Uniseriate spinulose falcate hair
- F48. Uniseriate dendritic falcate hair
- F49. Uniseriate furcatus capitate hair
- F50. Biseriate osteolate hair
- F51. Uniseriate osteolate falcate hair
- F52. Uniseriate septate dendritic falcate hair
- F53. Biseriate cylindrical hair
- F54. Uniseriate barbed hair
- F55. Uniseriate capitate moniliform hair
- F56. Uniseriate moniliform hair
- F57. Uniseriate capitate hair
- F58. Bi-cellular barbed hair
- F59. Uniseriate branched capitate hair
- F60. Uniseriate cylindrical barbed hair
- F61. Uniseriate bulbiferous spinulose hair
- F62. Uniseriate bulbiferous hair
- F63. Uniseriate branched furcatus hair
- F64. Multiseriate furcatus hair
- F65. Uniseriate cylindrical dendroid hair
- F66. Multiseriate vesicular cylindrical hair

G. Stomatal complex

- G1. *Amaranthus caudatus* var. *caudatus*
- G2. *Amaranthus dubius*
- G3. *Amaranthus graecizans* ssp. *thellungianus*
- G4. *Amaranthus polygamous*
- G5. *Amaranthus retroflexus*
- G6. *Amaranthus cruentus*
- G7. *Amaranthus hybridus* var. *hybridus*
- G8. *Amaranthus caturus*
- G9. *Amaranthus blitum* var. *oleraceous*
- G10. *Amaranthus spinosus*
- G11. *Amaranthus tricolor* var. *tricolor*
- G12. *Amaranthus tricolor* var. *tristis*
- G13. *Amaranthus mangostanus*
- G14. *Amaranthus viridis*
- G15. *Achyranthes bidentata*
- G16. *Aerva lanata*
- G17. *Allmania nodiflora*
- G18. *Cyathula prostrata*
- G19. *Digera muricata*
- G20. *Nothosaerva brachiata*
- G21. *Pupalia lappacea*
- G22. *Psilostachys sericea*
- G23. *Psilotrichum elliotii*
- G24. *Trichurus monsoniae*

H: Polygonal representation and Dendrograms

- H1. Polygraph showing relation between *Amaranthus caturus* with other OTUs
- H2. Polygraph showing relation between *A. caudatus* var. *caudatus* with other OTUs
- H3. Polygraph showing relation between *A. caudatus* var. *aleopecurus* with other OTUs
- H4. Polygraph showing relation between *Amaranthus dubius* with other OTUs
- H5. Polygraph showing relation between *Amaranthus edulis* with other OTUs

- H6. Polygraph showing relation between *A. graecizans ssp. thellungianus* with other OTUs
- H7. Polygraph showing relation between *Amaranthus cruentus* with other OTUs
- H8. Polygraph showing relation between *A. hybridus var. hybridus* with other OTUs
- H9. Polygraph showing relation between *A. blitum var. oleraceus* with other OTUs
- H10. Polygraph showing relation between *Amaranthus polygamus* with other OTUs
- H11. Polygraph showing relation between *Amaranthus spinosus* with other OTUs
- H12. Polygraph showing relation between *Amaranthus retroflexus* with other OTUs
- H13. Polygraph showing relation between *Amaranthus mangostanus* with other OTUs
- H14. Polygraph showing relation between *A. tricolor. var. tricolor* with other OTUs
- H15. Polygraph showing relation between *Amaranthus tricolor var. tristis* with other OTUs
- H16. Polygraph showing relation between *Amaranthus viridis* with other OTUs
- H17. Polygraph showing relation between *Achyranthes bidentata* with other OTUs
- H18. Polygraph showing relation between *Aerva lanata* with other OTUs
- H19. Polygraph showing relation between *Allmania nodiflora* with other OTUs
- H20. Polygraph showing relation between *Cyathula prostrata* with other OTUs
- H21. Polygraph showing relation between *Digera muricata* with other OTUs
- H22. Polygraph showing relation between *Nothosaerva brachiata* with other OTUs
- H23. Polygraph showing relation between *Psilostachys sericea* with other OTUs
- H24. Polygraph showing relation between *Psilotrichum elliotii* with other OTUs
- H25. Polygraph showing relation between *Pupalia lappacea* with other OTUs
- H26. Polygraph showing relation between *Trichurus monsoniae* with other OTUs
- H27. Dendrogram based on External morphology
- H28. Dendrogram based on Leaf architecture
- H29. Dendrogram based on Trichome complex
- H30. Dendrogram based on Phytochemistry
- H31. Dendrogram based on all disciplines
