ACKNOWLEDGEMENT

I record my deep sense of gratitude to Dr. Dipak Kumar Dutta, Scientist, Material Science Division, Regional Research Laboratory, Jorhat, Assam, for his very inspiring round the clock guidance and supervision of the works that embodied in this thesis. I feel lack of words to acknowledge this guidance adequately.

Dr. Jatindra Nath Ganguli, Professor in Chemistry, Gauhati University, had also taken the pains for guiding me as a co-guide and I gratefully acknowledge the same.

I am grateful to Dr. P. G. Rao, Director, RRL Jorhat, for giving me the permission to complete the work and for very stimulating encouragement all throughout my stay at RRL, Jorhat. I am also grateful to Dr. J. S. Sandhu, Ex. Director, RRL Jorhat, for allowing me to start my research work as a guest worker.

My sincere gratitude goes to The University Grants Commission, New Delhi, for providing me a Teacher Fellowship for a period of two years to complete the research work leading to the thesis and also to the Governing body of D.H.S.K. College, Dibrugarh for granting me leave. I am thankful to all my colleagues of D.H.S.K. College, Dibrugarh in general and those in the department of chemistry in particular, including Mrs. H. L. Deori, the former Head of department of chemistry, for encouragement.

I gratefully acknowledge the encouragement and support of Dr. P. C. Borthakur, Head Material Science Division, during the progress of the work.
Dr. D. C. Goswami, Deputy Director, RRL Jorhat had always been helpful and cooperative during my stay at RRL, Jorhat and I gratefully acknowledge the same. I owe special gratitude to Shri J. Parasar, C.O.A., RRL, Jorhat for his encouragement and help in various matter.

The research team-mates of Material Science Division of RRL, Jorhat namely Dr. M. Borah, Dr. P. Das, Dr. O. S. Ahmed, Dr. N. Kumari, Mr. M. Sharma, Mr. P. Chutia, Mr. B. J. Sarmah and Mr. S. Bhorodwaj provided me with the required support and encouragement all throughout my work and I thank them all for the pains they have taken in providing me with adequate cooperation. I gratefully acknowledge the help received from Mr. D. Bordoloi T.O., Mr. A. Baruah, T.O. and all the working staff of Material Science Division. I extend my gratitude to all other scientists of Material Science Division, Coal Division and Geoscience Division for their kind help in different ways during my research period.

My thankful gratitude goes to Dr. R. K. Baruah, Scientist, Analytical Division and Dr. A. Goswami, Scientist, Synthetic Organic Chemistry Division for their help in the analytical part of my thesis. For the same, thank is also due to Mr. M. G. Pathak, T.O., Mr. P. Khound, T.O. Mr. O. P. Sahu, T.O. of RRL, Jorhat, Mr. J. Borgohain and Mr. M. Sharma of Oil India Limited, Duliajan and Mr. S. Karmakar, Scientific Officer, USIC, G.U. for their help in getting analytical and spectral data. I am also thankful to my friends Dr. R. C. Baruah, Scientist, Medicinal Chemistry Division and Dr. S. D. Baruah, Scientist, Petroleum and Natural Gas Division for their advice and encouragement.
I could not have completed my work without the support of my mother-in-law who, in spite of her old age, had always provided me with constant encouragement and by taking the pains of running the family during the entire period of my work.

I do acknowledge with gratitude the great support and encouragement that I received from my mother.

My husband Prof. Amarendra Nath Phukan and son Mr. Amitakhya Phukan encouraged me all the time during the entire period of the research work and I take pleasure in acknowledging them.

I conclude my acknowledgement with sincere obeisance to the great MOTHER and ALMIGHTY GOD whose Grace alone this thesis has seen the light of the day.

Date: 05.09.2005

(Anjali Phukan)
