ACKNOWLEDGEMENT

The thesis submitted to Gauhati University, for Ph.D in Science embodies the results of the research work carried out by me under the supervision of my guide Dr. Okhil Kumar Medhi, Ph.D, IIT Kanpur, Professor, Department of Chemistry & Vice - Chancellor of Gauhati University. I owe a deep debt of gratitude to him for the supervision and guidance but for which, it would not have been possible to complete the investigation.

The unstinted cooperation extended by Dr. P. J. Das, Head, Chemistry Department, and the faculty members, Gauhati University, for their valuable support at each and every level whenever required which enable me to overcome many a tribulation and ordeal in the course of the work. I also express my thanks to Professor Madam C. Medhi, also from Department of Chemistry, Gauhati University, for her encouragement.

It was Dr. Raghaw Saran, Scientific officer-G (Retd.), my local guide, AMD, Nagpur, who encouraged inspired and motivated me to take up the academic pursuit through his valuable guidance and suggestions. He was the moving sprit behind the pursuit; I wonder whether I would ever have enough words to express my feelings for him. With the deepest sense of indebtedness, I express my sincerest gratitude to him who seeded the idea of the pursuit basically and provided all the support needed to shape and concretize it.

I gratefully acknowledge my thanks to Dr. Anjan Chaki, Director, AMD, Hyderabad, for giving kind permission to do the work.
My thanks are also due to Dr. M. K. Roy, Regional Director, Central Region, AMD, Nagpur for their encouragement & valuable support. I am most grateful to Dr. K. Shiv Kumar, Head, MPG Group, AMD, Hyderabad for his encouragement during the work.

It is a pleasure to place on record my thanks to Shri Praveen Kumar Jain, Incharge, XRF Laboratory, Nagpur for his guidance, kind help and to my colleagues for their support. However, a few names are deserving special mention are Shri Lueis Tirkey, Kunkuri, who helped me in field work and Shri Balku Kisku & Shri S. P. Bagade, for processing samples at XRF Laboratory, AMD, CR, Nagpur.

I am especially thankful to Dr. G. Chakrapani, Incharge, Chemical Laboratory and Dr. A. A. Patwardhan, AMD, CR, Nagpur for chemical analysis and valuable support.

I would like to acknowledge to Dr. P. B. Nandkar, Professor & Head, Department of Botany, Dr. D. P. Gogle, Reader and Miss Supriya Urkude, Research Scholar, Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur for their valuable suggestions and cooperation.

I am delighted that by the completion of this work, I have succeed in realizing, in part, the dream of my father Late Shri Ganpatrao Shinde and mother Late Smt. Taibai Shinde, who had indomitable penchant for academic pursuit and excellence. I also thankful to my mother in law Smt. Anusayabai Mahadev Gaikwad, for her kind support and blessings.
Most importantly, I would like to acknowledge my elder sister, Mrs. Malanbai & brother in law Manjabapu Thorat, elder brothers Shri Shrirang Shinde, Shri Bhanudas Shinde, and my Bhabis, Mrs. Ayodhayabai and Mrs. Kanthabai who inspired me for hard work and strive to do the best at whatever, I attempt in my life.

I would like to acknowledge to my brother in laws, Shri Arjun Gaikwad, Shri Bhimrao Gaikwad and sisters, Mrs. Sushilabai Gaikwad and Mrs. Sumanbai Gaikwad and also my cousin brother Shri Vishwanath Ekanath Rajguru, Ahmednagar, for their valuable support and motivation.

Finally, I wish to express my deep appreciation and sincere thanks to my wife Mrs. Sheela Shinde and my beloved daughter Shalini and son Praveen for their tremendous love, understanding, patience, sacrifice, co-operation and guided me to successful completion of this work.

Although I may not ambitiously speculate on breaking fundamentally new grounds, I have good reason to find myself in my element with the findings which are original and provide a better understanding of the subject in the field of investigation. The outcome of some results has been published in the Indian journals.
