ACKNOWLEDGEMENTS

The work was suggested and supervised by Dr. T.C. Sharma, Professor, Department of Anthropology, Gauhati University, Guwahati. It is a pleasure to express my sincere feelings of gratitude to him for his guidance, encouragement and active co-operation at all stages of work.

Shri. B.C. Poddar (then Director of Quaternary Geology, Geomorphology and Environmental Geology Division, Geological Survey of India (GSI), Shillong) Dy. Director General, GSI, Central Region, Nagpur formulated the mapping programme and provided scientific guidance in the field and laboratory. Shri. Poddar also scrutinised the draft manuscript (Geomorphology and Geology chapters) of the thesis and suggested valuable modifications. I express my profound gratitude to him for his valuable guidance, allround co-operation and encouragement, which enabled me to sustain my efforts.

I am grateful to the Director General, GSI, Calcutta and Dy. Director General, Southern Region, GSI, for kindly permitting me to pursue the research and utilise the Departmental data. Thanks are due to Shri. K.V. Krishnamurthy, the then Director of Tripura-Mizoram Circle, GSI, Agartala for his encouragement and logistic support. The co-operation and assistance extended by the Govt. officials of Tripura, are gratefully acknowledged.

(i)
I am highly indebted to Dr. G. Rajagopalan, Asst. Director, BSIP, Lucknow for helping me by readily accepting our samples for dating and promptly furnishing radiocarbon dates from time to time.

I am immensely benefitted by the help and encouragement received from Dr. S.N. Rajaguru, Professor, Deccan College and Post Graduate Institute, Pune.

I am thankful to Dr. S.B. Ota, Dy. Superintending Archaeologist, Archaeological Survey of India, Nagpur for his co-operation and help in the classification of archaeological material.

I was highly encouraged by Shri. C. Tripathi, Sr. Dy. Director General (Retd), GSI who visited Tripura during my field work on March 22, 1982 and examined the stone tool specimens and advised me to pursue the study.

I wish to express my sincere gratitude to Dr. (Ms) Minarva Sonowal, Exploration Assistant, Ms. Bananee Deka and Shri. Bhaskar Das, Technical Assistants, Ambari Excavation Project, Gauhati University, Guwahati, for helping me in the preparation of tool drawings and typological analysis.

Thanks are due to Dr. V.V. Krishna Sastry, Director, Department of Archaeology and Museums, Govt. of Andhra Pradesh and the authorities of Osmania University, Hyderabad for generously extending the library facilities.

(ii)
It is my pleasant duty to thank Shri. P. Balakrishnan, Geologist (Sr) for scrutinising the thesis and suggesting valuable corrections, and to other senior officers of GSI for co-operation.

I thank S/Shri. S.N. Sinha and K. Ramakrishna Rao and Smt. K. Sivaganga of Photogeology and Remote Sensing Division, for making skilful drawings of the maps, and to Smt. Surya Ramani, Library Assistant, GSI, Hyderabad for helping me in the preparation of list of references.

My wife, Mrs. Veena Ramesh, deserves special thanks and appreciation for the neat and patient typing of thesis. She inspired me to carry on the research work. Her active co-operation and help enabled me to complete the work in a record time. Encouragement from my family members is acknowledged without which this work would not have been possible.
