The thesis entitled "The Systematic Studies on the Aquatic Angiosperms of Cachar District of Assam" has been presented for Degree of Doctor of Philosophy in Botany under the faculty of Science of the Gauhati University Assam. The investigation and research topic has been suggested by Dr. Sudhangshu Chowdhury, Reader in Botany and now Professor and Head of the department of Botany, Gauhati University. The work has been started in July 1989. Since then collections/explorations have been carried out on personal initiative and continued till October 1993 to complete the study. I am deeply indebted to my respected teacher Prof. Dr. S. Chowdhury, who created and increased my interest in Plant Taxonomy. He has kindly given me the opportunity to work in the project. His continued guidance throughout the period of research work, not only in the field of study but also in laboratory has made possible to submit the thesis in its present form. I am fortunate enough that Prof. Dr. S. Chowdhury has given his kind consent and constant supervision, skillful guidance, great encouragements and invaluable help to complete the work. With profound pleasure and deep sense of gratitude I render my heartful gratefulness to Professor Dr. S. Chowdhury.

I sincerely acknowledge the assistance rendered by the Director, Botanical Survey of India, Howrah; the Deputy Director, Botanical Survey of India, Eastern Circle, Shillong, for their permission in utilizing resources available in Central National Herbarium, Howrah (CAL), Kanjilal Herbarium, Shillong (ASSAM) respectively.

I am also thankful to the Officers and Librarian of B.S.I., Shillong, more particularly to Sri Sankar Das, Herbarium Assistant of B.S.I, Shillong, for their help in identification of plant specimens.

I am also indebted for the help and co-operation rendered to me by the staff members of K.K.Handique Library, G.U.

I express my sincere thanks to the Head of Botany Department, G.U. for providing facilities in the Department; the Principal, G.C.College, Silchar, Assam for permitting me to continue the Research.
And finally, I like to express my indebtedness to my father, younger brothers, brother-in-laws and sisters and my wife Ratna, for their inspiration.

My appreciation also goes to Sri J.C. Malakar for his assistance in some of my collection trips and also to Sri Sudip Chakraborty of Electro Prints, Silchar, for typing out the thesis.

Guwahati
The 1st August, 1995.
