</table>
4.5 Growth indices of the output of the units studied.

4.6 Summary result of estimated trend equations of value added of the units studied.

4.7 Growth indices of the value added of the industrial groups.

4.8 Summary result of estimated trend equations of value added according to the industrial groups.

4.9 Growth indices of the employment of the units studied.

4.10 Summary result of estimated trend equations of employment of the units studied.

4.11 Growth indices of the employment of the industrial groups.

4.12 Summary result of estimated trend equations of employment according to the industrial groups.

4.13 Growth indices of the fixed capital of the units studied.

4.14 Summary result of estimated trend equations of fixed capital of the units studied.

4.15 Growth indices of fixed capital of the industrial groups.

4.16 Summary result of estimated trend equations of fixed capital according to the industrial groups.

4.17 Labour productivity indices of the units studied.

4.18 Summary result of estimated trend equations of labour productivity of the units studied.

4.19 Labour productivity indices of selected industrial Group.

4.20 Summary result of estimated trend equations of labour productivity according to the industrial groups.

4.21 Capital productivity indices of the units studied.

4.22 Summary result of estimated trend equations of capital productivity of the units studied.

4.23 Capital productivity indices of the units according to industrial groups.

4.24 Summary results of estimated trend equations of a capital productivity according to the industrial groups.

4.25 Total factor productivity indices of the units studied (Translog).
4.26 Summary result of estimated trend equations of total factor productivity of the units studied (Translog).

4.27 Total factor productivity indices of industrial groups (Trans Log).

4.28 Summary result of estimated trend equations of total factor productivity according to the industrial groups.

4.29 Rate of capacity utilisation of the units studied.

4.30 Index of capacity utilization.

5.1 Common size balance sheet of the studied unit (source of funds)

5.2 Common size balance sheet of the selected industries (source of funds).

5.3 Common size income statement of units studied.

5.4 Common size Income Statement of the units studied according to the industries.

5.5 Current ratios of the units studied.

5.6 Industry average of current ratios for the period 1980-81 to 1989-90.

5.7 Acid-test ratio of the units studied.

5.8 Industry average of Acid test ratios for the period 1980-81 to 1989-90.

5.9 Inventory turnover ratio of the units studied.

5.10 Industry average of inventory turnover ratios for the period 1980-81 to 1989-90.

5.11 Working capital turnover ratio.

5.12 Industry average of working capital turnover ratios for the period 1980-81 to 1989-90.

5.13 Debt-equity ratio of the units studied.

5.15 Interest coverage ratio of the units studied.

5.16 Industry average of interest coverage ratios for the period 1980-81 to 1989-90.

5.17 Gross profit sales ratio of the units studied.
5.18 Industry average of the gross profit sales ratios for the period 1980-81 to 1989-90.

5.19 Net profit sales ratio of the units studied.

5.20 Industry average of the net profit sales ratios for the period 1980-81 to 1989-90.

6.1 Classification of board members in the units according to the educational qualifications.

6.2 Classification of board members in the industrial groups according to the educational qualifications.

6.3 Distribution of the board members in the units on the basis of co-operative education.

6.4 Classification of Board members in the units on the basis of work performance.

6.5 Classification of board members in different industrial groups according to the work performance.

6.6 Classification of Board members in the units on the basis of political attachment.

6.7 Classification of board members in different industrial groups according to political attachment.

6.8 Distribution of members and workers of the units studied.

6.9 Classification of members and workers according to the industrial groups.

6.10 Distribution of the workers in the units on the basis of age.

6.11 Distribution of the workers in the units on the basis of educational qualification.

6.12 Distribution of the workers in the units on the basis of income.

6.13 Distribution of the workers in the units on the basis of wages & salary.

6.14 Distribution of the workers in the units on the basis of length of service.

6.15 Distribution of the workers in the units on the basis of trade union activities.

6.16 Distribution of the workers in the units on the basis political attachment.
6.17 Classification of workers according to the level of the involvement.

6.18 Distribution of the workers in the units on the basis of the level of involvement.

A.2.1 Classification of SSI units according to the type or organisation as on 1984-85.

A.2.2 Performance of SSI units during the period 1980-81 to 1989-90.

A.4.1 Total factor productivity indices of the units studied (Kendrick).

A.4.2 Total Factor productivity indices (Kendrick) of the units according to the Industrial Groups.

A.4.3 Total factor productivity indices of the units studied (Solow).

A.4.4 Total Factor Productivity Indices (Solow) of the units according to the Industrial Groups.
