CHAPTER 8

BIBLIOGRAPHY

10. Burmister D. M. (1943) "The theory of stresses and displacements in layered systems and applications to the design of Airport Runways", Proceedings of HRB, 23 pp 126-14400

18. Datye K.R (1981) "Fourth IGS lecture on Low cost and energy saving technique for for ground improvement, soil stabilisation and soil reinforcement"

22. Dunn C.S and Bora P.K (1972) Shear strength of untreated road base aggregates measured by variable lateral pressure triaxial cell, Journal of materials, ASTM's journal on testing and evaluation, June 1972

31. **IRC** 37, 2001 Guidelines for the design of flexible pavements, Indian Roads Congress, New Delhi

32. **IRC-37**, 2001 Guidelines for design and construction of flexible pavement, Published by Indian Road Congress

33. **John NWM** Geotextiles, Blackie, New Work, 347 pp 1987, and so book Ground improvement techniques by Dr. P. Purashattam Raj page 215, Laxmi Publication (p) Ltd, New Delhi

48. Mc Leod N.W (1953) Some basic problems in Highway flexible pavement design, proceedings of Highway research board, pp 91-118

54. **Mohamed S Omer, Dr.** (1985) “Resilient and creep characteristics of base and sub-grade materials” *HRB No 27*, Indian Roads Congress. Page 11-28., 1985

55. **MORTH** (2001) Ministry of Road, Transport & Highways Specifications. for road and bridge works fourth revision, Published by IRC.

63. **Ramakrishna S** (1996) Investigation on applications of coir reinforcement in geotechnical engineering, MS thesis submitted to IIT, Madras

71. Rao G.V., Balan K (1994) Coir geotextiles -A perspective . 2nd international workshop on Geotextiles. 11-12 January. New Delhi, India. 119-126

84. Sharma U.S, (1997) Ecofriendly and versatile coirgeotextile, Paper presented on seminar Geosynthetic Asia, 97, 26-29 Nov, Bangalore, India

89. SP: 36 (Part-1), 1987 Compendium of Indian standards on soil engineering - Part 1, laboratory testing of soils for civil purposes, Bureau of Indian standards, New Delhi

90. Sridharan A (1986) "Reinforced soil structure - theoretical considerations", CBIP workshop on reinforced soil

93. Sudha S Namboothiry COIR GEOTEXTILES - SAVING THE EARTH NATURALLY (CORD Vol XVII No.2, 2001)

96. US NAVY (1953) "Airfield pavement, Bureau of Yards and Docks". Technical publication. NAVDOCKS

98. Vidal H (1968) "Reinforced Earth applications" so and so Field Experiment on reinforced soil embankment. Indian Geotechnical Journal.20(3),1990
