ACKNOWLEDGEMENT

There are people, who simply by being what they are with their great influence and motivation, make some impossible tasks possible. I pay my homage from the innermost part of my heart to my guide Prof. Jaydeb Sarkhel whose dedicated endeavor contributed a lot to make this thesis a successful one. I do honestly declare that without the effective guidance and supervision of my respected guide in every stage, I could not achieve my goal.

No achievement is materialized without the spontaneous assistance of some great personalities. I do hereby honestly admit that it would not have been possible for me to complete the thesis without the cordial help of my respected teachers in the Department of Commerce, particularly, Prof. P. Das, Prof. A Mallik, Prof. P. K. Chakraborty, Prof. U.K. Mallick, and Prof. S.K. Ghosh. I rarely find any words to express my gratitude for those honourable teachers. I also render my gratitude to Prof. Arvind K Jha, Sr. Lecturer in IT, ASBM, Bhubaneswar, for his constant encouragement in completing this thesis. At this hour, I would like to take the solemn oath to remember their wise advice and sincere contribution till the end of my life.

Behind any successful work there lies the role of some efficient hands. From behind the screen applying their skills and hard labour they perform the Herculean task. I do pay my hearty regard to Mr. Sunil Kumar Behera, System Administrator, ASBM, Bhubaneswar and M/s Sai Printers, Sailashree Vihar, Bhubaneswar without whose laborious effort; I could not complete my thesis.

At the end I do hereby acknowledge my gratefulness for the dearest ones of my life- my parents - without whose inspiration and affectionate blessings I could not reach the height of this success.
