ACKNOWLEDGEMENTS

At the outset, I extend my deep sense of gratitude to my teacher and guide Prof. K. Venkateswarlu, FNAAS, FAMI, former UGC-SAP Coordinator, Department of Microbiology, Sri Krishnadevaraya University, Anantapur for his concern and sustainable interest in a methodical way of giving valuable suggestions throughout my research career.

I am greatly indebted to express my sincere thanks to Prof. R. Ramanjaneyulu, Prof. V. Rangaswamy, Prof. P.B.B.N. Charyulu, Prof. B. Rajasekhar Reddy, Chairman BOS, and Prof. B. Venkatappa, Head, Department of Microbiology, Sri Krishnadevaraya University, Anantapur for their valuable help and suggestions in significant ways in my entire research.

I remain thankful to our Principal Dr. S. Imthiaz Ahmed, National P.G. College, Nandyal, not only for his encouragement and nice co-operation but for everything at every stage in the completion of my Ph.D. programme, by providing me lab facilities. He is the first person who inspired me to do this work, and without his help and support, this work would never have been completed.

I have been fortunate to receive an excellent support from the staff of Department of Microbiology and other colleagues of National P.G. College, Nandyal. I would also like to acknowledge with sincere gratitude all those who have taken the trouble in the timely completion of my research.

I am also grateful to the staff of Agriculture Department, Nandyal and Regional Agricultural Research Station, Nandyal for providing me literature and helping me in areas where my knowledge is imperfect.

As always, I owe great debt of gratitude to the scholars, Mrs. P. Srilatha, Mr. M. Sreenivasulu, Ms. Joshna, Mr. G.V. Subba Reddy, Mr. K. Praveen Kumar, Mrs. T. Varalakshmi, Mr. G. Jaffer Mohiddin and Ms. K. Monika in the Department of Microbiology, Sri Krishnadevaraya University for their continued help and support.

Above all, I would like to thank my beloved parents, my wife, other family members and friends for their years of help in many ways, and in compilation, proof reading, and many other tasks.

M. NAGARAJU
