# CONTENTS

Preface

## CHAPTER 1: INTRODUCTION

1.1 Introduction to Embedded systems 1
1.2 Concepts of a Microcontroller 4
1.3 Concepts of RGB colour cube 5
1.4 Overview of colour the identification system 7
1.5 Scope of the present study 8

References 10

## CHAPTER 2: SYSTEM HARDWARE

2.1 Principle of operation 11
2.2 Description of block diagram 12
2.3 Sensing unit 13
2.4 A/D Converter 14
2.5 AT89C51 Microcontroller 16
2.6 Audio unit 19
2.7 Power supply unit 23
2.8 photographs

References 25

## CHAPTER 3: SYSTEM SOFTWARE

3.1 Salient features of Assembly Language 27
3.2 8051 Cross Assembler Overview 28
3.3 ATMEL 89C51 programmer 32
3.4 Pseudo Code 35
3.5 Flow chart 36
3.6 Detailed Program 40

## CHAPTER 4: RESULTS AND DISCUSSION

4.1 Testing of the system 51
4.2 Conclusions 51
4.3 Future scope of the study 52

Appendix

1. Data sheets of Microcontroller 89C51
