CHAPTER 1: INTRODUCTION TO MICROPROCESSORS AND DEVELOPMENT OF MICRO CONTROLLERS

1.1 Evolution of the Microprocessor
1.2 Development of single chip microcomputer/microcontroller
1.3 Concept of embedded system and use of microcontrollers in embedded system
1.4 Applications of embedded microcontrollers

References

CHAPTER 2: GENERAL HARDWARE DETAILS OF THE MICROCONTROLLER: AT89C51, INTRODUCTION TO STEPPER MOTORS AND WEB CAMERA

2.1 Atmel 89C51 Microcontroller: Hardware Details
2.2 Atmel 89C51 Architecture and Pin Details
2.3 Introduction to Stepper Motors
2.4 Introduction to Web Camera

References

CHAPTER 3: HARDWARE AND SOFTWARE DETAILS OF THE EMBEDDED WEB CAMERA CONTROL

3.1 Hardware Description
3.2 Software Description
3.3 Programming of the microcontroller
3.4 Testing
3.5 Results and Discussion

References

List of Publications

Appendix A: Data sheets of Microcontroller 89C51 and Darlington driver ULN 2003

Appendix B: Photographs of different types of web camera

Appendix C: Photographs of different types of stepper motor
