Acknowledgement

It is my proud privilege to offer my sincere and heartiest thanks and gratitude to my teacher and supervisor Dr. N R Das, who provided me with meticulous and excellent guidance throughout for successful completion of the work embodied in the present thesis. Without his initiation, inspiration and proper response, this work would not have been possible.

I would like to thank all the faculty members of the Department of Mathematics, Gauhati University, for their inspiration and support to me. I make a special mention of my college classmate Dr. Hemanta Sarmah for his valuable help.

I would also like to thank my colleagues, especially Dr. Jnanjyoti Sarma, and friends of R.G. Baruah College, for their encouraging words.

I would like to thank my husband Mr Anjan Bordoloye for his words of encouragement towards my work. Without his help every detail of typing would not have been possible.

I thank my children Jaydeep and Chandamita, for bearing with me during the period of my research.

And last, but not the least, I am grateful to the Almighty for the blessings endowed on me which enabled me to reach this cherished moment of my life.
